Management's Discussion and Analysis
For the three and nine-month periods ended August 31, 2019

General
This Management's Discussion and Analysis of the financial position and financial performance ("MD&A") of MTY Food Group Inc. ("MTY") is supplementary information and should be read in conjunction with the Company's condensed interim consolidated financial statements for the period ended August 31, 2019 and the audited consolidated financial statements and accompanying notes for the fiscal year ended November 30, 2018.

In the MD&A, MTY Food Group Inc., MTY, or the Company, designates, as the case may be, MTY Food Group Inc. and its Subsidiaries, or MTY Food Group Inc., or one of its subsidiaries.

The disclosures and values in this MD&A, unless otherwise noted, were prepared in accordance with International Financial Reporting Standards (IFRS) and with current issued and adopted interpretations applied to fiscal years beginning on or after December 1, 2018.

This MD&A was prepared as of October 10, 2019. Supplementary information about MTY, including its latest annual and quarterly reports, and press releases, is available on SEDAR's website at www.sedar.com and on www.mtygroup.com.

Forward looking statements and use of estimates
This MD&A and, in particular, but without limitation, the sections of this MD&A entitled Outlook, Same-Store Sales, Contingent Liabilities and Subsequent Event, contain forward-looking statements. These forward-looking statements include, but are not limited to, statements relating to certain aspects of the business outlook of the Company during the course of 2019. Forward-looking statements also include any other statements that do not refer to independently verifiable historical facts. A statement made is forward-looking when it uses what is known and expected today to make a statement about the future. Forward-looking statements may include words such as aim, anticipate, assumption, believe, could, expect, goal, guidance, intend, may, objective, outlook, plan, project, seek, should, strategy, strive, target and will. All such forward-looking statements are made pursuant to the 'safe harbour' provisions of applicable Canadian securities laws.

Unless otherwise indicated, forward-looking statements in this MD&A describe the Company's expectations as at October 10, 2019 and, accordingly, are subject to change after such date. Except as may be required by Canadian securities laws, the Company does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Forward-looking statements, by their very nature, are subject to inherent risks and uncertainties and are based on several assumptions which give rise to the possibility that actual results or events could differ materially from the expectations expressed in or implied by such forward-looking statements and that the business outlook, objectives, plans and strategic priorities may not be achieved. As a result, the Company cannot guarantee that any forward-looking statement will materialize, and readers are cautioned not to place undue reliance on these forward-looking statements. Forward-looking statements are provided in this MD&A for the purpose of giving information about management's current strategic priorities, expectations and plans and allowing investors and others to get a better understanding of the business outlook and operating environment. Readers are cautioned, however, that such information may not be appropriate for other purposes.

Forward-looking statements made in this MD&A are based on a number of assumptions that are believed to be reasonable on October 10, 2019. Refer, in particular, to the section of this MD&A entitled Risks and Uncertainties for a

description of certain key economic, market and operational assumptions the Company has used in making forward-looking statements contained in this MD&A. If the assumptions turn out to be inaccurate, the actual results could be materially different from what is expected.

In preparing the condensed interim consolidated financial statements in accordance with IFRS and the MD&A, management must exercise judgment when applying accounting policies and use assumptions and estimates that have an impact on the amounts of assets, liabilities, sales and expenses reported and information on contingent liabilities and contingent assets provided.

Unless otherwise indicated in this MD&A, the strategic priorities, business outlooks and assumptions described in the previous MD&A remain substantially unchanged.

Important risk factors that could cause actual results or events to differ materially from those expressed in or implied by the above-mentioned forward-looking statements and other forward-looking statements included in this MD&A include, but are not limited to: the intensity of competitive activity, and the resulting impact on the ability to attract customers' disposable income; the Company's ability to secure advantageous locations and renew existing leases at sustainable rates; the arrival of foreign concepts, the ability to attract new franchisees; changes in customer tastes, demographic trends and in the attractiveness of concepts, traffic patterns, occupancy cost and occupancy level of malls and office towers; general economic and financial market conditions, the level of consumer confidence and spending, and the demand for, and prices of, the products; the ability to implement strategies and plans in order to produce the expected benefits; events affecting the ability of third-party suppliers to provide essential products and services; labour availability and cost; stock market volatility; volatility in foreign exchange rates or borrowing rates; foodborne illness; operational constraints and the event of the occurrence of epidemics, pandemics and other health risks.

These and other risk factors that could cause actual results or events to differ materially from the expectations expressed in or implied by these forward-looking statements are discussed in this MD&A.

Readers are cautioned that the risks described above are not the only ones that could impact the Company. Additional risks and uncertainties not currently known or that are currently deemed to be immaterial may also have a material adverse effect on the business, financial condition or results of operations.

Except as otherwise indicated by the Company, forward-looking statements do not reflect the potential impact of any non-recurring or other special items or of any dispositions, monetizations, mergers, acquisitions, other business combinations or other transactions that may be announced or that may occur after October 10, 2019. The financial impact of these transactions and non-recurring and other special items can be complex and depend on the facts particular to each of them. The Company therefore cannot describe the expected impact in a meaningful way or in the same way that present known risks affecting our business.

Compliance with International Financial Reporting Standards

Unless otherwise indicated, the financial information presented below, including tabular amounts, is prepared in accordance with International Financial Reporting Standards ("IFRS"). MTY uses earnings before interest, taxes, depreciation and amortization ("EBITDA"), because this measure enables management to assess the Company's operational performance.

The Company also discloses same-store sales growth, which are defined as comparative sales generated by stores that have been open for at least thirteen months or that have been acquired more than thirteen months ago. Same store sales growth provides information on the comparative performance of the restaurants in our network from one period to the next.

Similarly, the Company uses system sales to evaluate the size and performance of MTY's network, as well as to indicate its income-generation potential. System sales include the sales of existing restaurants, of the ones that have closed or have opened during the period, as well as the sales of new concepts acquired from the closing date of the transaction and forward.

These measures are widely accepted financial indicators but are not a measurement determined in accordance with IFRS and may not be comparable to those presented by other companies. These non-IFRS measures are intended to provide additional information about the performance of MTY and should not be considered in isolation or as a substitute for measure of performance prepared in accordance with IFRS.

The Company uses these measures to evaluate the performance of the business as they reflect its ongoing operations. Management believes that certain investors and analysts use EBITDA to measure a company's ability to meet payment obligations or as a common measurement to value companies in the industry. Similarly, same-store sales growth and

system sales provide additional information to investors about the performance of the network that is not available under IFRS. Both measures are components in the determination of short-term incentive compensation for some employees.

Highlights of significant events during the nine-month period

Acquisition of Allô! Mon Coco

On July 21, 2019, the Company's Canadian operations completed its acquisition of the assets of Allô! Mon Coco for a total consideration of $31.2 million. A total of approximately $24.1 million was paid on closing, financed from MTY's cash on hand and existing credit facility, while $0.2 million in net liability was assumed and $7.1 million was held back in the form of contingent consideration and holdbacks. At closing, there was 40 franchised restaurants in operation.

Acquisition of Yuzu Sushi

On July 15, 2019, the Company's Canadian operations completed its acquisition of the assets of Yuzu Sushi for a total consideration of $27.3 million. A total of approximately $25.4 million was paid on closing, financed from MTY's cash on hand and existing credit facility and $2.0 million was held back in the form of contingent consideration. At closing, there was 129 franchised restaurants in operation.

Acquisition of Papa Murphy

On May 23, 2019, the Company, through the merger of a wholly-owned US subsidiary with Papa Murphy's Inc. ("PM"), acquired all the outstanding shares of PM. The total consideration for the transaction was $255.2 million. At closing, PM operated 1,301 franchised and 103 corporate-owned stores in the U.S., Canada and United Arab Emirates.

Acquisition of South Street Burger

On March 21, 2019 the Company acquired the assets of South Street Burger for a total consideration of approximately $4.9 million. A total of approximately $4.1 million was paid on closing, financed from MTY's cash on hand and existing credit facilities, while $0.2 million in net liabilities was assumed and $0.7 million was held back. At closing, there were 24 franchised restaurants and 13 corporate restaurants in operation.

Acquisition of Casa Grecque

On December 10, 2018, the Company completed its acquisition of most of the assets of Casa Grecque for a total consideration of $22.0 million, of which $20.9 million was financed from MTY's cash on hand and existing credit facilities, while $0.2 million in net liabilities was assumed and $1.3 million was held back.

Restatement of comparatives

Effective December 1, 2018, the Company implemented IFRS 15, Revenue from contracts with customers. Comparative figures provided for each quarter of the year ended November 30, 2018 have been restated to reflect the adoption of this accounting standard. The adjustments to the condensed interim consolidated statements of financial position and income statement as a result of the adoption of IFRS 15 are discussed further in the *Changes in accounting policies* section.

Core business

MTY franchises and operates quick service and casual dining restaurants under the following banners: Tiki-Ming, Sukiyaki, La Crémière, Au Vieux Duluth Express, Panini Pizza Pasta, Villa Madina, Cultures, Thaï Express, Vanellis, Kim Chi, "TCBY", Sushi Shop, Koya Japan, Vie & Nam, Tandori, O'Burger, Tutti Frutti, Taco Time, Country Style, Buns Master, Valentine, Jugo Juice, Mr. Sub, Koryo Korean Barbeque, Mr. Souvlaki, Sushi Go, Mucho Burrito, Extreme Pita, PurBlendz, ThaïZone, Madisons New York Grill & Bar, Café Dépôt, Muffin Plus, Sushi-Man, Fabrika, Van Houtte, Manchu Wok, Wasabi Grill & Noodle, Tosto, Big Smoke Burger, Cold Stone Creamery, Blimpie, Surf City Squeeze, The Great Steak & Potato Company, NrGize Lifestyle Café, Samurai Sam's Teriyaki Grill, Frullati Café & Bakery, Rollerz, Johnnie`s New York Pizzeria, Ranch One, America's Taco Shop, Tasti D-Lite, Planet Smoothie, Maui Wowi, Pinkberry, Baja Fresh Mexican Grill, La Salsa Fresh Mexican Grill, La Diperie, Steak Frites St-Paul, Giorgio Ristorante, The Works Gourmet Burger Bistro, Houston Avenue Bar & Grill and Industria Pizzeria + Bar, Dagwoods Sandwiches and Salads, The Counter Custom Burgers, Built Custom Burgers, Baton Rouge, Pizza Delight, Scores, Toujours Mikes, Ben & Florentine, Grabbagreen, Timothy's World Coffee, Mmmuffins, SweetFrog, Casa Grecque, South Street Burger, Papa Murphy's, La Boite Verte, Yuzu Sushi and Allô! Mon Coco.

As at August 31, 2019, MTY had 7,441 locations in operation, of which 7,278 were franchised or under operator agreements and the remaining 163 locations were operated by MTY.

MTY's locations can be found in: i) mall and office tower food courts and shopping malls; ii) street front; and, iii) non-traditional format within airports, petroleum retailers, convenience stores, cinemas, amusement parks, in other venues or retailers shared sites, hospitals, universities and food-truck carts. The street front locations are mostly made up of the Country Style, La Crémière, Sushi Shop, Taco Time, Tutti Frutti, Valentine, Mr. Sub, ThaïZone, Extreme Pita, Mucho Burrito, Madisons, Houston Avenue Bar & Grill, Industria Pizzeria + Bar, Steak Frites St-Paul, Giorgio Ristorante, The Works Gourmet Burger Bistro, Blimpie, Cold Stone Creamery, Baja Fresh Mexican Grill, The Counter Custom Burgers, Built Custom Burgers, Baton Rouge, Scores, Pizza Delight, Toujours Mikes, Ben & Florentine, Grabbagreen, Casa Grecque, South Street Burger, Papa Murphy's and Allô! Mon Coco. La Crémière, "TCBY", La Diperie and SweetFrog operate primarily from April to September and the other banners generally operate year-round.

MTY has developed several quick service restaurant concepts: Tiki-Ming (Chinese cuisine), was its first banner, followed by Sukiyaki (a Japanese delight), Franx Supreme (hot dog/hamburger), Panini Pizza Pasta, Chick'n'Chick, Caferama, Carrefour Oriental, Villa Madina, Kim Chi, Vie & Nam, Tandori, O'Burger, Tosto and La Boite Verte.

Other banners added through acquisitions include:

MTY also has an exclusive area development agreement with Restaurant Au Vieux Duluth to develop and sub-franchise Au Vieux Duluth Express quick-service restaurants in the Provinces of Ontario and Quebec.

Revenues from franchise locations are generated from royalty fees, promotional funds revenue, franchise fees, sales of turnkey projects, rent, sign rental, supplier contributions, gift card breakage and program fees and sales of other goods and services. Operating expenses related to franchising include salaries, general and administrative costs associated with existing and new franchisees, expenses in the development of new markets, costs of setting up turnkey projects, rent, supplies, finished products and equipment sold.

Revenues from corporate-owned locations include sales generated from corporate-owned locations. Corporate owned location expenses include the costs incurred to operate corporate owned locations.

MTY generates revenues from the food processing businesses discussed herein. The two plants produce various products that range from ingredients and ready to eat food sold to restaurants or other food processing plants to prepared food sold in retail stores. The plants generate most of their revenues selling their products to distributors, retailers and franchisees. The Company also generates revenues from the sale of retail products under various brand names which are sold at various retailers. The Company also generates revenue from its distribution centers that serves primarily the Valentine and Casa Grecque franchisees.

Description of recent acquisitions

On July 21, 2019, the Company's Canadian operations completed its acquisition of the assets of Allô! Mon Coco for a total consideration of $31.2 million. A total of approximately $24.1 million was paid on closing, financed from MTY's cash on hand and existing credit facility, while $0.2 million in net liability was assumed and $7.1 million was held back in the form of contingent consideration and holdbacks. At closing, there was 40 franchised restaurants in operation.

On July 15, 2019, the Company's Canadian operations completed its acquisition of the assets of Yuzu Sushi for a total consideration of $27.3 million. A total of approximately $25.4 million was paid on closing, financed from MTY's cash on hand and existing credit facility and $2.0 million was held back in the form of contingent consideration. At closing, there was 129 franchised restaurants in operation.

On May 23, 2019, the Company, through the merger of a wholly-owned US subsidiary with Papa Murphy's Inc. ("PM"), acquired all the outstanding shares of PM. The total consideration for the transaction was $255.2 million. At closing, PM operated 1,301 franchised and 103 corporate-owned stores in the U.S., Canada and United Arab Emirates.

On March 21, 2019 the Company acquired the assets of South Street Burger for a total consideration of approximately $4.9 million. A total of approximately $4.1 million was paid on closing, financed from MTY's cash on hand and existing credit facilities, while $0.2 million in net liabilities was assumed and $0.7 million was held back. At closing, there were 24 franchised restaurants and 13 corporate restaurants in operation.

On December 10, 2018, the Company completed its acquisition of most of the assets of Casa Grecque for a total consideration of $22.0 million, of which $20.9 million was financed from MTY's cash on hand and existing credit facilities, while $0.2 million in net liabilities was assumed and $1.3 million was held back.

On September 25, 2018, the Company announced that it had completed the acquisition of substantially all of the assets of SweetFrog Premium Frozen Yogurt for $41.5 million (US$ 32.1 million). Of this total, $37.4 million (US$ 28.9 million) was paid on closing. At closing, there were 323 franchised/licensed locations in the US and 8 located internationally.

On September 7, 2018, the Company acquired the remaining 10% non-controlling interest of 8825726 Canada Inc. (Madison's) for a cash consideration of $1.1 million.

On April 4, 2018, one of the Company's wholly owned subsidiaries acquired the assets of Timothy's World Coffee® and Mmmuffins®. The total consideration amounted to $1.3 million, of which $1.2 million was paid on closing. At closing, there were 39 locations in operation in Canada.

On March 15, 2018, one of the Company's wholly owned subsidiaries acquired the assets of Grabbagreen®. The total consideration amounted to $3.4 million (US$ 2.6 million), of which $3.1 million (US$2.4 million) was paid on closing. At closing, there were 27 locations in operation in the United States.

On March 1, 2018, the Company, through the merger of a wholly owned subsidiary with Imvescor Restaurant Group Inc. ("IRG"), acquired all the outstanding shares of IRG. The total consideration for the transaction was $250.8 million, of which $53.1 million was settled in cash and the remaining in shares. At closing IRG operated 5 brands in Canada and had 261 locations in operation.

Earnings per diluted share	$0.91	$2.07	$0.64	$0.88	$0.53	$0.58	$0.76	$0.91
Free cash flows [1]	$23,727	$13,524	$23,883	$27,733	$27,113	$24,914	$21,767	$26,680

(1) EBITDA (income before income taxes, interest, depreciation and amortization) and free cash flow are non-GAAP financial measures and do not have any standardized meaning under IFRS. Therefore, they may not be comparable to similar measures presented by other companies. EBITDA is defined as operating revenues less operating expenses. See reconciliation of EBITDA to Income before taxes on page 12. Free cash flow is defined as operating cash flows less capital expenditure.

(2) Normalized EBITDA is EBITDA before transaction costs related to acquisitions.

(3) Figures have been restated to reflect the adoption of IFRS 15. Refer to Changes in accounting policies for further details.

Segment note disclosure

Management monitors and evaluates results of the Company based on geographical segments; these two segments being Canada and US & International. The Company and its chief operating decision maker assess the performance of each operating segment based on its segment profit and loss which is equal to revenue less operating expenses. Within those geographical segments, the Company's chief decision maker also assesses the performance of subdivisions based on the type of product or service provided. These subdivisions include franchising, corporate store, food processing, retail and distribution and promotional funds revenues and expenses.

Results of operations for the nine-month period ended August 31, 2019

Revenue

During the first nine months of the 2019 fiscal year, the Company's total revenue increased to $400.9 million, from $295.9 million a year earlier. Revenues for the two segments of business are broken down as follows:

Segment	Subdivision	August 31, 2019 ($ millions)	August 31, 2018 [1] ($ millions)	Variation
Canada	Franchise operation	104.4	90.0	16%
	Corporate stores	29.4	25.3	16%
	Food processing, distribution and retail	72.4	31.8	128%
	Promotional funds	31.6	25.6	23%
	Intercompany transactions	(1.9)	(1.9)	N/A
Total Canada		235.9	170.8	38%
USA & International	Franchise operation	99.4	80.0	24%
	Corporate stores	31.9	20.7	55%
	Food processing, distribution and retail	3.1	2.5	23%
	Promotional funds	30.8	22.1	39%
	Intercompany transactions	(0.2)	(0.2)	N/A
Total USA/International		165.0	125.1	32%
Total operating revenues		**400.9**	**295.9**	**36%**

(1) Amount have been restated to reflect IFRS 15 retroactive change in accounting policies. Please refer to note 3 of the August 31, 2019 condensed interim consolidated financial statement for further details.

Canada revenue analysis:

Revenue from franchise locations in Canada increased by 16%. Several factors contributed to the variation, as listed below:

	$ millions
Revenues, first nine months of 2018	90.0
Increase in recurring revenue streams	1.4
Increase in initial franchise fees, renewal fees and transfer fees	0.8
Increase in turnkey, sales of material to franchisees and rent revenues	2.9
Decrease due to gift card breakage income	(0.3)
Increase due to the acquisitions	10.6
Other non-material variations	(1.0)
Revenues, first nine months of 2019	104.4

Revenue from corporate-owned locations increased by 16% to $29.4 million during the period. The increase is mainly due to the addition of 13 new corporate restaurants at the beginning of the second quarter of this year with the acquisition of South Street Burger.

Food processing, distribution and retail revenues more than doubled in 2019. Of the total increase of $40.6 million, $11.2 million was IRG's contribution during the first quarter of 2019, $14.4 million due to organic growth in the Company's retail channel sales and $15.0 million was the result of the combined distribution and food processing sales from the Casa Grecque acquisition.

Revenue from promotional funds received increased mostly as a result of the acquisition of IRG which was only acquired in the second quarter of 2018.

USA/International revenue analysis:

Revenue from franchise locations in the US increased by 24%. Several factors contributed to the variation, as listed below:

	$ millions
Revenues, first nine months of 2018	80.0
Decrease in recurring revenue streams	(0.8)
Increase in initial franchise fees, renewal fees and transfer fees	0.7
Decrease due to the sale of material and services to franchisees	(2.0)
Decrease due to gift card breakage income	(0.4)
Increase due to acquisitions	20.6
Impact of variation in foreign exchange rates	2.1
Other non-material differences	(0.8)
Revenues, first nine months of 2019	99.4

Excluding Papa Murphy's, revenue from corporate-owned locations decreased by $4.9 million or 24% during the period due to a decrease in the number of corporate locations.

Promotional funds revenue increased by 39% mainly as a result of the acquisitions in the 2019 year.

Cost of sales and other operating expenses

During the nine-month period ended August 31, 2019, operating expenses increased by 45% to $296.6 million, up from $204.0 million a year ago. Operating expenses for the two business segments were incurred as follows:

Segment	**Subdivision**	**August 31, 2019 ($ millions)**	**August 31, 2018 (1) ($ millions)**	**Variation**
Canada	Franchise operation	49.5	37.7	31%
	Corporate stores	30.7	25.5	21%
	Food processing, distribution and retail	64.9	26.9	141%
	Promotional funds	31.6	25.6	23%
	Intercompany transactions	(2.1)	(2.1)	N/A
Total Canada		174.6	113.6	54%
USA & International	Franchise operation	58.7	44.5	32%
	Corporate stores	32.5	23.8	37%
	Promotional funds	30.8	22.1	39%
Total USA/International		122.0	90.4	35%
Total cost of sales and other operating expenses		**296.6**	**204.0**	**45%**

(1) Amount have been restated to reflect IFRS 15 retroactive change in accounting policies. Please refer to note 3 of the August 31, 2019 condensed interim consolidated financial statement for further details.

Canada cost of sales and other operating expenses analysis:

Cost of sales and other operating expenses from franchise locations in Canada increased by $11.8 million or 31%. Several factors contributed to the variation, as listed below:

	$ millions
Cost of sales and other operating expenses, first nine months of 2018	37.7
Increase in recurring expenses	2.9
Increase in cost of sale of material and services to franchisees	2.2
Increase due to professional and consulting fees	1.8
Increase due to acquisitions	4.0
Other non-material differences	0.9
Cost of sales and other operating expenses, first nine months of 2019	49.5

Professional and consulting fees increased by $1.8 million mainly as a result of additional acquisition transaction costs which represent $1.0 million as well as additional consulting fees with regards to the implementation of IFRS 9 – financial instruments, IFRS 15 – revenue from contract with customers and IFRS 16 – leases for a total of $0.4 million.

The variation of expenses from the corporate stores and food processing, distribution and retail as well as promotional funds expenses activities were tightly correlated to the related revenues.

USA/International cost of sales and other operating expenses analysis:

Cost of sales and other operating expenses from franchise locations in the USA/International increased by $14.2 million or 32%. Several factors contributed to the variation, as listed below:

	$ millions
Cost of sales and other operating expenses, first nine months of 2018	44.5
Decrease in recurring expenses	(2.1)
Decrease in cost of sale of material and services to franchisees	(0.3)
Increase due to professional and consulting fees	3.4
Increase due to acquisitions	10.5
Impact of variation in foreign exchange rates	2.2
Other non-material differences	0.5
Cost of sales and other operating expenses, first nine months of 2019	58.7

The increase in professional fees results from the acquisition of Papa Murphy's.

The variations from corporate stores costs and promotional funds fluctuated in correlation to the related revenues.

Earnings before interest, taxes, depreciation and amortization (EBITDA)

Nine months ended August 31, 2019			
(In millions $)	Canada	USA & International	Total

Impact of variation in foreign exchange rates	—	0.4	0.4
Other non-material differences	(1.7)	(1.3)	(3.0)
EBITDA, first nine months of 2019	61.3	43.0	104.3

Total EBITDA for the nine-month period ended August 31, 2019 was $104.3 million, an increase of 13% compared to the same period last year. Canada contributed 59% of total EBITDA and 33% of the total increase in EBITDA, mainly owing

to the acquisitions realized in 2018 and 2019. Imvescor Restaurant Group was the largest contributor. During the first quarter of 2019, it contributed to the growth in EBITDA by $4.9 million.

The USA & International EBITDA grew by 24% mainly as a result of the 2018 and 2019 acquisitions as well as the sale and closure of some unprofitable corporate stores. Papa Murphy's contributed to 27% of the total EBITDA growth. Foreign exchange fluctuations also had a $1.4 million favourable impact on EBITDA year-to-date.

The Company had year-over-year negative adjusted organic EBITDA[(1)]. Several factors contributed to the variation, as listed below:

(In millions $)	Canada	USA & International	Total
Adjusted organic EBITDA[(1)], first nine months of 2018	57.2	38.0	95.2
Variance in recurring revenues and expenses	(1.5)	1.3	(0.2)
Variance due to change in corporate store EBITDA	(0.2)	2.3	2.1
Increase in initial franchise fees, renewal fees and transfer fees	0.8	0.7	1.5
Variance due to the sale of material and services to franchisees	0.7	(1.1)	(0.4)
Decrease due to gift card breakage income	(0.3)	(0.4)	(0.7)
Decrease due to professional and consulting fees	(0.7)	(0.1)	(0.8)
Other non-material differences	(1.7)	(1.3)	(3.0)
Adjusted organic EBITDA[(1)], first nine months of 2019	54.3	39.4	93.7

(1) Adjusted organic EBITDA (income before income taxes, interest, depreciation and amortization) is not an earnings measure recognized by IFRS and therefore may not be comparable to similar measures presented by other companies. Adjusted organic EBITDA is defined as EBITDA before non-recurring costs, foreign exchange and acquisitions that have occurred within the last 21 months and is not comparable year-over-year.

Net income

For the nine-month period ended August 31, 2019, net income attributable to owners decreased to $57.0 million or $2.26 per share ($2.26 per diluted share) compared to $82.5 million or $3.45 per share ($3.45 per diluted share) for the same period last year.

Excluding the impact of a non-recurring acquisition costs in 2019 and 2018 as well as a favorable 2018 deferred income tax recovery adjustment related to prospective income tax rates for the United States, net income attributable to owners would have been $60.2 million in 2019 or $2.39 per share ($2.39 per diluted share) in 2019 versus $48.2 million in 2018, or $2.02 per share ($2.02 per diluted share).

Calculation of Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA)

	Period ended August 31, 2019	**Period ended August 31, 2018 [(1)]**
Income before taxes	72.5	61.2
Depreciation – property, plant and equipment	2.5	2.1
Amortization – intangible assets	21.3	18.1
Interest on long-term debt	11.9	8.8
Impairment charge on property, plant and equipment	1.0	1.5
Unrealized and realized foreign exchange gain	(0.4)	—
Interest income	(0.5)	(0.5)
Gain on disposal of property, plant and equipment and intangible assets	(1.7)	(0.5)
(Gain) loss on revaluation of financial liabilities recorded at fair value through profit and loss	(2.3)	1.2
EBITDA	**104.3**	**91.9**

(1) Amount have been restated to reflect IFRS 15 retroactive change in accounting policies. Please refer to note 3 of the August 31, 2019 condensed interim consolidated financial statement for further details.

Other income and charges

Amortization of intangible assets increased as a result of recent acquisitions and the intangibles added as part of adjustments made to purchase price allocations during the year.

Interest on long-term debt increased due to the increase in borrowings year-over-year as well an increase in interest rates.

During the second quarter of 2019 and 2018, as the result of a decline in their financial performance, the Company carried out a review of the recoverable amounts of the capital assets related to certain corporate stores. The review led to the recognition of a non-cash impairment loss of $1.0 million in 2019 and $1.5 million in 2018 composed of leasehold improvements and equipment.

Gain on revaluation of financial liabilities recorded at fair value through profit and loss increased for the nine-month period of 2019 compared to the same period last year. This was due primarily to the remeasurement of the promissory note subject to earn outs that have been finalized during the period.

Results of operations for the three-month period ended August 31, 2019

Revenue

During the third quarter of the 2019 fiscal year, the Company's total revenue increased to $163.1 million, from $113.0 million a year earlier. Revenues for the two segments of business are broken down as follows:

Segment	Subdivision	August 31, 2019 ($ millions)	August 31, 2018 [(1)] ($ millions)	Variation
Canada	Franchise operation	36.6	30.2	22%
	Corporate stores	10.8	9.6	12%
	Food processing, distribution and retail	26.6	17.3	54%
	Promotional funds	10.9	10.0	9%
	Intercompany transactions	(0.8)	(0.4)	N/A
Total Canada		84.1	66.7	26%
USA & International	Franchise operation	42.2	29.9	41%
	Corporate stores	21.4	7.6	185%
	Food processing, distribution and retail	1.0	0.8	21%
	Promotional funds	14.3	8.1	76%
	Intercompany transactions	—	(0.1)	N/A
Total USA/International		78.9	46.3	70%
Total operating revenues		**163.0**	**113.0**	**44%**

(1) Amount have been restated to reflect IFRS 15 retroactive change in accounting policies. Please refer to note 3 of the August 31, 2019 condensed interim consolidated financial statement for further details.

Canada revenue analysis:

Revenue from franchise locations in Canada increased by 22%. Several factors contributed to the variation, as listed below:

	$ millions
Revenues, third quarter of 2018	30.2
Increase in recurring revenue streams	1.2
Increase in initial franchise fees, renewal fees and transfer fees	0.2
Increase in turnkey, sales of material to franchisees and rent revenues	4.0
Decrease due to gift card breakage income	(0.1)
Increase due to the acquisitions	1.6
Other non-material differences	(0.5)
Revenues, third quarter of 2019	36.6

Revenue from corporate-owned locations increased by 12% to $10.8 million during the period. The increase is mainly due to the addition of 13 new corporate restaurants at the beginning of the second quarter of this year with the acquisition of South Street Burger.

Food processing, distribution and retail revenues increased by 54% in the third quarter, mainly due to the increase in sales to retail channels year-over-year as well as the acquisition of Casa Grecque where the combined distribution and food processing sales were $4.9 million.

USA/International revenue analysis:

Revenue from franchise locations in the US increased by 41%. Several factors contributed to the variation, as listed below:

	$ millions
Revenues, third quarter of 2018	29.9
Decrease in recurring revenue streams	(1.4)
Decrease due to the sale of material and services to franchisees	(0.5)
Decrease due to gift card breakage income	(0.6)
Increase due to acquisitions	16.2
Impact of variation in foreign exchange rates	(1.0)
Other non-material differences	(0.4)
Revenues, third quarter of 2019	42.2

Excluding the acquisition of Papa Murphy's, revenue from corporate-owned locations decreased by $4.9 million or 64% during the period. The decrease is due to a decrease in the number of corporate locations.

Cost of sales and other operating expenses

During the three-month period ended August 31, 2019, operating expenses increased by 63% to $121.2 million, up from $74.2 million a year ago. Operating expenses for the two business segments were incurred as follows:

Segment	Subdivision	August 31, 2019 ($ millions)	August 31, 2018 [(1)] ($ millions)	Variation
Canada	Franchise operation	16.7	11.7	43%
	Corporate stores	10.7	8.2	31%
	Food processing, distribution and retail	23.9	14.3	68%
	Promotional funds	10.9	10.0	9%
	Intercompany transactions	(0.8)	(0.5)	N/A
Total Canada		61.4	43.7	41%
USA & International	Franchise operation	24.1	14.6	64%
	Corporate stores	21.4	7.8	174%
	Promotional funds	14.3	8.1	76%
Total USA/International		59.8	30.5	95%
Total cost of sales and other operating expenses		**121.2**	**74.2**	**63%**

(1) Amount have been restated to reflect IFRS 15 retroactive change in accounting policies. Please refer to note 3 of the August 31, 2019 condensed interim consolidated financial statement for further details.

Canada cost of sales and other operating expenses analysis:

Cost of sales and other operating expenses from franchise locations in Canada increased by $5.0 million or 43%. Several factors contributed to the variation, as listed below:

	$ millions
Cost of sales and other operating expenses, third quarter of 2018	11.7
Increase in recurring expenses	1.7
Increase in cost of sale of material and services to franchisees	2.3
Increase due to professional and consulting fees	0.4
Increase due to acquisitions	0.9
Other non-material differences	(0.3)
Cost of sales and other operating expenses, third quarter of 2019	16.7

Professional and consulting fees increased by $0.4 million mainly as a result of additional acquisition transaction costs which represent $0.3 million as well as additional consulting fees with regards to the implementation of IFRS 9 – financial instruments, IFRS 15 – revenue from contract with customers and IFRS 16 – leases for a total of $0.1 million.

The variation of expenses from the corporate stores and food processing, distribution and retail as well as promotional funds expenses activities were tightly correlated to the related revenues.

USA/International cost of sales and other operating expenses analysis:

Cost of sales and other operating expenses from franchise locations in the USA/International increased by $9.5 million or 64%. Several factors contributed to the variation, as listed below:

	$ millions
Cost of sales and other operating expenses, third quarter of 2018	14.6
Decrease in recurring expenses	(1.5)
Increase in cost of sale of material and services to franchisees	1.2
Decrease due to professional and consulting fees	(0.3)
Increase due to acquisitions	8.6
Impact of variation in foreign exchange rates	0.1
Other non-material differences	1.4
Cost of sales and other operating expenses, third quarter of 2019	24.1

The variations from corporate stores costs and promotional funds fluctuated in correlation to the related revenues.

Expenses	26.3	16.0	14.3	18.1	(0.5)	74.2
EBITDA[1]	33.8	1.2	3.8	—	—	38.8
EBITDA as a % of Revenue	56%	7%	21%	N/A	N/A	34%

[(1)] EBITDA (income before income taxes, interest, depreciation and amortization) is not an earnings measure recognized by IFRS and therefore may not be comparable to similar measures presented by other companies. EBITDA is defined as operating revenues less operating expenses. See reconciliation of EBITDA to Income before taxes on page 17.

Several factors contributed to the variation, as listed below:

(In millions $)	Canada	USA & International	Total
EBITDA, third quarter of 2018	23.0	15.8	38.8
Variance in recurring revenues and expenses	(0.5)	0.1	(0.4)
Decrease in corporate store EBITDA	(1.3)	(0.2)	(1.5)
Increase in initial franchise fees, renewal fees and transfer fees	0.6	—	0.6
Variance due to the sale of material and services to franchisees	0.6	(1.2)	(0.6)
Increase in professional and consulting fees	—	0.3	0.3
Decrease due to gift card breakage income	(0.1)	(0.6)	(0.7)
Increase due to acquisitions	1.2	6.8	8.0
Decrease due to acquisition consulting fees	(0.4)	(0.1)	(0.5)
Impact of variation in foreign exchange rates	—	(1.1)	(1.1)
Other non-material differences	(0.4)	(0.7)	(1.1)
EBITDA, third quarter of 2019	22.7	19.1	41.8

Total EBITDA for the three-month period ended August 31, 2019 was $41.8 million, an increase of 8% compared to the same period last year. The increase is mostly due to the acquisitions realized in 2018 and 2019.

The Company had a decrease year-over-year of $3.4 million in adjusted organic EBITDA[(1)] for the third quarter. Several factors contributed to the variation, as listed below:

(In millions $)	Canada	USA & International	Total
Adjusted organic EBITDA[(1)], third quarter of 2018	23.0	19.1	42.1
Variance in recurring revenues and expenses	(0.5)	0.1	(0.4)
Decrease in corporate store EBITDA	(1.3)	(0.2)	(1.5)
Increase in initial franchise fees, renewal fees and transfer fees	0.6	—	0.6
Variance due to the sale of material and services to franchisees	0.6	(1.2)	(0.6)
Increase in professional and consulting fees	—	0.3	0.3
Decrease due to gift card breakage income	(0.1)	(0.6)	(0.7)
Other non-material differences	(0.4)	(0.7)	(1.1)
Adjusted organic EBITDA[(1)], third quarter of 2019	21.9	16.8	38.7

[(1)] Adjusted organic EBITDA (income before income taxes, interest, depreciation and amortization) is not an earnings measure recognized by IFRS and therefore may not be comparable to similar measures presented by other companies. Adjusted organic EBITDA is defined as EBITDA before non-recurring costs, foreign exchange and acquisitions that have occurred within the last 21 months and are not comparable year-over-year.

Net income

For the three-month period ended August 31, 2019, net income attributable to owners increased to $22.9 million or $0.91 per share ($0.91 per diluted share) compared to $22.1 million or $0.88 per share ($0.88 per diluted share) for the same period last year.

Calculation of Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA)

	Period ended August 31, 2019	**Period ended August 31, 2018[(1)]**

(Gain) loss on revaluation of financial liabilities recorded at fair value through profit and loss	(0.4)	0.3
EBITDA	**41.8**	**38.8**

[(1)] Amount have been restated to reflect IFRS 15 retroactive change in accounting policies. Please refer to note 3 of the August 31, 2019 condensed interim consolidated financial statement for further details.

Other income and charges

Gain on revaluation of financial liabilities recorded at fair value through profit and loss increased for the third quarter of 2019 compared to the same period last year. This was due primarily to the remeasurement of the promissory note subject to earn outs that have been finalized during the period.

Liquidity and capital resources

As of August 31, 2019, the amount held in cash totaled $43.7 million, an increase of $11.4 million since the end of the 2018 fiscal period. The increase is primarily explained by earnings from new acquisitions and timing of cash payments.

During the nine-month period ended August 31, 2019, the Company paid $12.6 million in dividends to its shareholders. This had no significant impact on the cash position of the Company as a result of strong cash flows generated by operations.

During the first nine months of 2019, cash flows generated by operating activities were $75.1 million, compared to $67.4 million for the same period of 2018. Excluding the variation in non-cash working capital items, income taxes and interest paid, operations generated $105.7 million in cash flows, compared to $92.9 million in 2018, which represents an increase of 14% year-over-year. The increase is in line with the EBITDA detailed above.

The revolving credit facility has an authorized amount of $650.0 million (November 30, 2018 - $500.0 million), of which $545.9 million was drawn at August 31, 2019 (November 30, 2018 - $256.1 million).

The facility has the following financial covenants:

- The Debt to EBITDA ratio must be less than 4.00:1.00 after the consummation of an acquisition in excess of $100.0 million for a period of nine months after acquisition; 3.50:1.00 for the following nine months, and 3.00:1.00 thereafter.
- The interest and rent coverage ratio must be at 2.00:1.00 at all times.

The credit agreement also contains various limitations on distributions and on the usage of the proceeds from the disposal of assets which are not expected to impact the Company during the term of the credit agreement.

The revolving facility is repayable without penalty with the balance due on the date of maturity July 21, 2021.

At quarter end, the Company was in compliance with the covenants of the credit agreement.

Financial position

Accounts receivable at the end of the period were $60.4 million, compared to $50.0 million at the end of the 2018 fiscal period. The increase is attributable to the acquisitions of Papa Murphy's, Casa Grecque and as well as the timing of cash receipts.

Inventories increased from $4.0 million at the end of the 2018 fiscal year to $7.9 million at the end of the third quarter of 2019. The increase is due to the acquisition of Casa Grecque and its distribution and food processing center during the first quarter and the acquisition of Papa Murphy's during the second quarter of 2019.

Assets held for sale increased to $20.5 million from $nil at the end of 2018 resulting from the acquisition of Papa Murphy's.

Property, plant and equipment grew by $2.1 million. The increase is mainly as a result of acquisitions made during the year offset by an impairment charge of $1.0 million recorded in the second quarter of 2019.

Intangible assets increased by $186.9 million. The increase is mainly contributed to the acquisitions of Casa Grecque, South Street Burger and Papa Murphy's. Purchase price allocations for Yuzu Sushi and Allô! Mon Coco have not yet been completed and as such, the Company expects material changes to intangible assets in the next quarters.

Goodwill increased by $175.7 million as a result of the acquisitions of Casa Grecque, South Street Burger and Papa Murphy. The Company has not completed the fair value assessment of the intangibles assets and goodwill acquired from the acquisitions of Yuzu Sushi and Allô! Mon Coco. Consequently, part of the fair value adjustments, mainly relating to franchise rights, trademark and deferred income tax, related to these acquisitions are included in goodwill in the preliminary fair value assessment of the assets acquired. The Company expects material changes to this in the next quarter.

Accounts payable and accrued liabilities increased to $88.9 million as at August 31, 2019, from $67.8 million as at November 30, 2018. The majority of the $21.1 million increase is due to the acquisition of Papa Murphy's with the remaining variance due to the timing of cash payments to suppliers.

Provisions, which are composed of litigation and dispute, closed store and gift card provisions, increased to $103.1 million as at August 31, 2019 from $90.0 million as at November 30, 2018. The increase is mainly due to the acquisition of Papa Murphy's and an increase in gift card liability as a result of seasonality of the gift card program in the United States.

Long-term debt increased by $294.4 million. The increase is attributable to the additional funds required for the acquisition of Allô! Mon Coco, Yuzu Sushi, Papa Murphy's, South Street Burger and Casa Grecque as well as its associated holdbacks. This was partially offset by repayments made during the quarter.

Further details on the above statement of financial position items can be found in the notes to the August 31, 2019 condensed interim consolidated financial statements.

Capital stock

As at October 10, 2019, the Company had 25,169,778 shares outstanding.

Location information

MTY's locations can be found in: i) food courts and shopping malls; ii) street front; and iii) non-traditional format within petroleum retailers, convenience stores, cinemas, amusement parks, in other venues or retailer shared sites, hospitals, universities and airports. The non-traditional locations are typically smaller in size, require lower investment and generate lower revenue than the shopping malls, food courts and street front locations.

Total, end of the period			**7,441**	5,690

The Company's network opened 219 locations (83 in Canada, 89 in the United States and 47 International) for the nine-month period of 2019. For the third quarter only, there were 84 locations opened (39 in Canada, 33 in the United Stated and 12 International).

During the first nine months of the year, the Company's network closed 406 locations (127 in Canada, 217 in the United States and 62 International); of those 157 were closed during the third quarter of the year (50 in Canada, 78 in the United Stated and 29 International). Of the locations closed year-to-date, 53% were located on street front, 22% in malls and office towers and 25% in other non-traditional formats.

Primary reason for closures year-to-date is as follows:

	Franchise in service less than 10 years	**Franchise in service more than 10 years**	**Total**
Lease & franchise agreement expiry	25%	26%	51%
Landlord termination	4%	2%	7%
Financial performance	29%	9%	38%
Conversion to another brand	1%	1%	1%
Other	2%	1%	3%
	61%	**39%**	**100%**

The Frozen Treats and Sandwiches and Coffee categories have contributed to the largest part of the decline; during the quarter the Sandwiches and Coffee category remained the most challenging with a net reduction of 21. Papa Murphy's also had a net decrease of 21 during the third quarter.

The chart below provides the breakdown of MTY's locations and system sales by type:

Location type	% of location count		% of system sales Nine months ended	
	August 31		**August 31**	
	2019	2018	**2019**	2018
Shopping mall & office tower food courts	**16%**	22%	**18%**	23%
Street front	**63%**	51%	**70%**	62%
Non-traditional format	**21%**	27%	**12%**	15%

The geographical breakdown of MTY's locations and system sales consists of:

Geographical location	% of location count		% of system sales Nine months ended	
	August 31		**August 31**	
	2019	2018	**2019**	2018
Canada	38%	47%	48%	50%
United States	55%	44%	47%	44%
International	7%	9%	5%	6%

In the United States, only the state of California exceeds 10% of the total system sales for the year. Florida is the second largest contributor to the network's sales with 3%. For the third quarter, with the acquisition of Papa Murphy's, California continued to be the largest contributor with 10% of sales, followed by Washington and Oregon with 4% each.

The West Coast of the United States contributes 24% of the Company's system sales (51% of the sales realized in the United States), while the states bordering the Atlantic represent 13% of the Company's system sales (27% of the sales realized in the United States).

The breakdown by types of concepts for the system sales are as follows:

Location type	% of location count Nine months ended		% of system sales Nine months ended	
	August 31		**August 31**	
	2019	2018	**2019**	2018
Quick Service Restaurant (QSR)	**85%**	84%	**65%**	72%
Fast Casual	**9%**	9%	**13%**	14%
Casual Dining	**6%**	7%	**22%**	14%

During the first three quarters of 2019, casual dining concepts generated approximately 22% of system sales (up from 14% in 2018); this proportion has gone up following several acquisitions in the Casual Dining segment in the last two

years. Recent acquisitions in the casual dining segment represent 15% of total sales compared to 11% in 2018. Quick Service locations currently represent 65% of the network's sales, down from 72% in 2018, and fast casual locations represents the balance.

System wide sales

During the three and nine-month period ended August 31, 2019, MTY's network generated $1,076.2 million and $2,596.3 million in sales respectively, an increase of 36% and 25% respectively compared to sales generated in the prior year. The increase is distributed as follows:

	Sales	
	Three months	Nine months
(millions of $)	Ended August 31, 2019	
Reported sales – comparative period of 2018 fiscal year	789.9	2,076.1
Net increase in sales generated by concepts acquired during the last 21 months	285.6	492.1
Net change resulting from stores opened or closed in the last 21 months	(7.8)	(4.9)
Change in same store sales growth	2.8	(0.4)
Cumulative impact of foreign exchange variation	3.7	35.5
Other non-material variations	2.0	(2.1)
Reported sales – 2019 fiscal year	1,076.2	2,596.3

During the first three quarters of 2019, system sales totaled $2,596.3 million, compared to $2,076.1 million during the same period last year. The acquisitions realized during 2018 and 2019 were the main drivers for the growth in system sales. The weakening Canadian dollar resulted in a favorable variation of $35.5 million in reported sales, while the net impact of stores opened and closed in the past 21 months was a $4.9 million decrease in system sales.

Net organic change in system sales, described as the movement in system sales excluding recent acquisitions, for the three and nine-month period ended August 31, 2019 was a loss of $5.0 million and a loss of $5.3 million respectively. Most of the variance in organic system sales was caused by the impact of store closures. For the quarter, this was offset by favourable same store sales results of $2.8 million.

Cold Stone Creamery is the only concept that currently represents more than 10% of system sales, generating approximately 19% of the total sales of MTY's network during the nine-month period. Papa Murphy's was second with 9% of system sales. Thai Express, Taco Time and Baja Fresh Mexican Grill are the third, fourth and fifth largest concepts in terms of system sales, generating less than 10% each of the network's sales.

For the third quarter, Papa Murphys exceeded Cold Stone Creamery sales with 21% of total system sales. Cold Stone Creamery sales represented 18% of total sales.

System wide sales include sales for corporate and franchise locations and exclude sales realized by the distribution centers, by the food processing plants and by the retail division. System sales are converted from the currency in which they are generated into Canadian dollars for presentation purposes; they are therefore subject to variations in foreign exchange rates.

Same store sales

During the three months ended August 31, 2019, same store sales grew by 0.3% over the same period last year.

Same store sales growth was broken down as follows in MTY's main regions:

Region	**Quarter ended August 31, 2019**	**Nine months ended August 31, 2019**
Canada	+0.7%	+0.9%
United States	+0.6%	-0.3%
International	-5.4%	-7.9%
Total	+0.3%	-0.0%

During the third quarter of 2019, same store sales for Canadian locations increased by 0.7% and has now been positive for the last eight quarters. Quebec, the West and the Maritimes continue to show positive same store sales growth with growths of 1.0%, 0.7% and 3.8% respectively for the quarter compared to prior year. Ontario had a slight decline of 0.6% during the quarter mostly due to weakness in mall sales. This was partially offset by an increase in street sales.

The United States had third quarter positive same store sales of 0.6%. The West Coast, which represents 52% of total US system sales, had positive growth of 0.2% for the quarter. The East Coast continued to see positive growth with a 1.3% increase.

International same store sales decreased by 5.4% during the quarter mostly as a result of decreases in the middle east and Asia.

During the quarter, the newly acquired Papa Murphy's brand posted a negative 0.9% same store sales for franchised locations and negative 2.5% for corporates stores. Those figures are excluded from the information presented above as MTY has not owned this network for more than 12 months yet. Although the brand showed a strong month of July, warmer weather compared to prior year and competitive pressures from other pizza brands had negative impacts on the quarter.

For 2019, management expects competition in both the Canadian and US markets to intensify further from a price, product, experience and delivery to end customer points of view. Restaurants are facing more and more competition for food dollars coming from various sources including retail stores "grab and go" and "meal kit deliveries" types of offering. MTY has increased its presence on food delivery platforms and has invested in its own delivery/pick up application to align with consumer preferences.

Although consumer confidence and the current economic environment seem favorable at the moment, volatility in the price of commodities and currencies has a very material impact on employment rates and disposable income for MTY's customers, resulting in uncertainty with respect to the future.

Stock options

During the period, there was no change to stock options. As at August 31, 2019 there were 200,000 options outstanding and 22,222 exercisable.

Subsequent Events

Amendment to credit facilities

On September 23, 2019, the Company amended its credit agreement with a syndicate of lenders. Pursuant to this amendment the Company will have an unsecured revolving credit facility with an authorized amount of $700.0 million. Maturity and pricing terms have changed in conjunction with this amendment, with the remaining terms mostly unchanged.

Acquisition of Turtle Jack's Muskoka Grill, COOP Wicked Chicken and Frat's Cucina

On October 2, 2019, the Company announced that one of its wholly-owned subsidiaries has signed an agreement to acquire a 70% interest in Turtle's Jack's Muskoka Grill, COOP Wicked Chicken and Frat's Cucina (together "Tortoise Group"), three casual dinning concepts operating in the province of Ontario. There are currently 19 franchised Turtle Jack's restaurants in operation. The two COOP Wicked Chicken and the Frat's Cucina restaurants are company-owned, both concepts being in their start-up period. The acquisition is expected to be completed within 45 days of the announcement.

Seasonality

Results of operations for any interim period are not necessarily indicative of the results of operations for the full year. The Frozen treat category, which is a significant category in the US market, varies significantly during the winter season as a result of weather conditions. This risk is offset by other brands which have better performance during winter seasons. Although the Company is trying to mitigate this risk, it still expects seasonality and weather conditions to be a factor in the quarterly variation of its results. Sales have been historically above average during May to August due to its frozen treat category and its increasing percentage in street front locations. Sales for shopping mall locations are also higher than average in December during the holiday shopping period.

Contingent Liabilities

The Company is involved in legal claims associated with its current business activities. The Company's estimate of the outcome of these claims is disclosed in note 15 of the consolidated financial statements as at November 30, 2018 and no material change occurred in the first nine months of 2019. The timing of the outflows, if any, is out of the control of the Company and is as a result undetermined at the moment.

Risks and uncertainties

Despite the fact that the Company has various numbers of concepts, diversified in type of locations and geographies across Canada and the United States, the performance of the Company is also influenced by changes in demographic trends, traffic patterns, occupancy level of malls and office towers and the type, number, and location of competing restaurants. In addition, factors such as innovation, increased food costs, labour and benefits costs, occupancy costs and the availability of experienced management and hourly employees may adversely affect the Company. Changing consumer preferences and discretionary spending patterns could oblige the Company to modify or discontinue concepts and/or menus and could result in a reduction of revenue and operating income. Even if the Company was able to compete successfully with other restaurant companies with similar concepts, it may be forced to make changes in one or more of its concepts in order to respond to changes in consumer tastes or dining patterns. If the Company changes a concept, it may lose additional customers who do not prefer the new concept and menu, and it may not be able to attract a sufficient new customer base to produce the revenue needed to make the concept profitable. Similarly, the Company may have different or additional competitors for its intended customers as a result of such a concept change and may not be able to successfully compete against such competitors. The Company's success also depends on numerous factors affecting discretionary consumer spending, including economic conditions, disposable consumer income and consumer confidence. Adverse changes in these factors could reduce customer traffic or impose practical limits on pricing, either of which could reduce revenue and operating income.

The growth of MTY is dependent on maintaining the current franchise system which is subject to the renewal of existing leases at sustainable rates, MTY's ability to continue to expand by obtaining acceptable store sites and lease terms, obtaining qualified franchisees, increasing comparable store sales and completing acquisitions. The time, energy and resources involved in the integration of the acquired businesses into the MTY system and culture could also have an impact on MTY's results.

Off-balance sheet arrangement

MTY has no off-balance sheet arrangements.

Related party transactions

Balances and transactions between the Company and its subsidiaries, which are related parties of the Company, have been eliminated on consolidation. Details of transactions between the Company and other related parties are disclosed below.

Compensation of key management personnel

The remuneration of key management personnel and directors during the periods was as follows:

(In thousands $)	**Three months ended August 31**		**Nine months ended August 31**	
	2019	2018	**2019**	2018
	$	$	**$**	$
Short-term benefits	**468**	480	**1,931**	1,321
Share based payment	**141**	159	**464**	473
Board member fees	**24**	12	**60**	37
Total remuneration of key management personnel	**633**	651	**2,455**	1,831

Key management personnel is composed of the Company's CEO, COO's and CFO. The remuneration of directors and key executives is determined by the Board of Directors having regard to the performance of individuals and market conditions.

Given its widely held share base, the Company does not have an ultimate controlling party; its most important shareholder is its Chair of the Board of Directors, who controls 19.41% of the outstanding shares.

The Company also pays employment benefits to individuals related to members of the key management personnel described above. Their total remuneration was as follows:

(In thousands $)	Three months ended August 31		Nine months ended August 31	
	2019	2018	**2019**	2018
	$	$	**$**	$
Short-term benefits	**131**	222	**362**	559
Share based payment	**6**	10	**16**	25
Consulting services	**—**	—	**38**	—
Total remuneration of individuals related to key management personnel	**137**	232	**416**	584

Future accounting changes

A number of new standards, interpretations and amendments to existing standards were issued by the International Accounting Standard Board ("IASB") that are not yet effective for the period ended August 31, 2019 and have not been applied in preparing the unaudited condensed interim consolidated financial statements.

The following standards may have a material impact on the consolidated financial statements of the Company:

Standard	**Issue date**	**Effective date for the Company**	**Impact**
IFRS 3 Business Combinations	October 2018	December 1, 2020	In assessment
IFRS 16 Leases	January 2016	December 1, 2019	In assessment
IFRIC 23 Uncertainty Over Income Tax Treatments	June 2017	December 1, 2019	In assessment

In October 2018, the IASB issued amendments to the definition of a business in IFRS 3 Business Combinations. The amendments are intended to assist entities to determine whether a transaction should be accounted for as a business combination or as an asset acquisition. The amendments to IFRS 3 are effective for annual reporting periods beginning on or after 1 January 2020 and apply prospectively. Earlier application is permitted. The Company is still in the process of assessing the impact on the financial statements.

On January 13, 2016, the IASB issued IFRS 16 which provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessees and lessors. It supersedes IAS 17 Leases and its associated interpretive guidance. Significant changes were made to lessee accounting with the distinction between operating and finance leases removed and assets and liabilities recognized in respect of all leases (subject to limited exceptions for short-term leases and leases of low value assets). In contrast, IFRS 16 does not include significant changes to the requirements for lessors. IFRS 16 is effective January 1, 2019 with earlier application permitted for companies that have also adopted IFRS 15 Revenue from Contracts with Customers. The Company anticipates a material change in the presentation of both the consolidated statement of financial position and the consolidated statement of income. As a result of IFRS 16, both assets and liabilities will significantly increase and there will be material changes to the presentation of expenses associated with the new lease standard.

On June 7, 2017, the IFRS Interpretations Committee issued IFRIC 23, which clarifies how the recognition and measurement requirements of IAS 12 Income Taxes are applied where there is uncertainty over income tax treatments. This standard is effective for annual reporting periods beginning on or after January 1, 2019.

The Company continues to assess the impact of these standards on its consolidated financial statements.

Changes in accounting policies

Policies applicable beginning December 1, 2018

The condensed interim consolidated financial statements have been prepared using the same accounting policies as those presented in the Company's audited annual consolidated financial statements for the year ended November 30, 2018, except as described below.

IFRS 9 – Financial Instruments

Beginning on December 1, 2018, the Company adopted IFRS 9 – *Financial Instruments*, issued in July 2014 and the related consequential amendments to IFRS 7 - *Financial Instruments: Disclosures*. IFRS 9 introduces new requirements for the classification of financial assets based on the business model used by an entity to manage financial assets and the characteristics of the contractual cash flows of those financial assets. IFRS 9 provides three classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL), replacing previous IAS 39 categories of held to maturity, loans and receivables and available for sale.

IFRS 9 also introduces a new expected credit loss model (ECL) for calculating impairment on financial assets replacing the incurred loss model in IAS 39. The ECL model applies to financial assets measured at amortized cost. Under IFRS 9, expected credit losses are recognized on initial recognition of financial assets which is earlier than under IAS 39. The adoption of IFRS 9 has not resulted in a material change to the Company's allowance for trade receivables and loans receivable.

The Company also adopted amendments to IFRS 9, issued in October 2017, effective in 2018. The component of the amendments relevant to the Company relates to clarifying the accounting for the modification of financial liabilities and requires the Company to recognize any adjustments to the amortized cost of the financial liability arising from a modification or exchange in profit or loss at the date of the modification or exchange, regardless of whether the changes are substantial and result in derecognition. The Company previously modified the terms for the revolving credit facility debt, which did not result in the derecognition of the debts. However, there was no material impact on the carrying amount of the debt as a result of applying the amendments to IFRS 9.

IFRS 9 Transitional Adjustments

As a result of the Company electing not to restate comparative figures, the information presented in the consolidated financial statements for the prior year does not reflect the requirements of IFRS 9 and therefore is not comparable to the information presented in the current period under IFRS 9. As such, comparative figures have been reported in accordance with the accounting policies described in the Company's audited annual consolidated financial statements. The adoption of this standard had no material impact on the consolidated financial statements of the Company.

The following table summarized the change in classification

	Original classification under IAS 39	New classification under IFRS 9
Financial assets:		
Cash	Loans and receivable	Amortized cost
Accounts receivable	Loans and receivable	Amortized cost
Loans receivable	Loans and receivable	Amortized cost
Financial liabilities:		
Accounts payable and accrued liabilities	Other financial liabilities	Amortized cost
Revolving credit facility	Other financial liabilities	Amortized cost
Non-interest-bearing contract cancellation fees and holdbacks	Other financial liabilities	Amortized cost
Promissory notes related to the acquisition of Houston Avenue Bar & Grill and Industria Pizzeria + Bar	FVTPL	FVTPL
Contingent consideration on acquisitions	FVTPL	FVTPL
Non-controlling interest buyback obligation	FVTPL	FVTPL
Non-controlling interest option	FVTPL	FVTPL

Following the adoption of IFRS 9, there were no further changes to the classification categories of financial assets and financial liabilities.

Financial instruments

Classification of financial assets

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at FVTPL) are added to or deducted from the fair value of the financial assets, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognized immediately in profit or loss.

On initial recognition, the Company classifies its financial assets as subsequently measured at either amortized cost, FVOCI or FVTPL, depending on its business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

A financial asset is subsequently measured at amortized cost if the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest. Unless a financial asset is designated at FVTPL, a financial asset is subsequently measured at FVOCI if the asset is held within a business model in order to collect contractual cash flows and sell financial assets and the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest. Financial assets that do not meet either the contractual cash flow characteristics of solely payments of principal and interest or the business model of held to collect or held to collect and sell are measured at FVTPL. Financial assets measured at FVTPL and any subsequent changes therein are recognized in net income.

The Company currently classifies its cash, accounts receivable and loans receivable as assets measured at amortized cost.

Effective interest method

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognized on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL.

Impairment of financial assets

On adoption of IFRS 9, the Company is required to assess the ECL associated with financial assets measured at amortized cost. ECL is calculated as the product of the probability of default, exposure at default and loss given default over the remaining expected life of the loans and discounted to the reporting date. The ECL model also incorporates forward-looking information, which increases the degree of judgment required as to how changes in macro-economic factors will affect ECL.

The Company has adopted the simplified ECL model for its trade receivables, as permitted by IFRS 9. The simplified approach under IFRS 9 permits the use of the lifetime expected loss provision for all trade receivables and also incorporates forward looking information. Lifetime ECL represents the ECL that will result from all probable default events over the expected life of a financial instrument.

For its loans receivable balance carried at amortized cost, the Company has applied the general ECL model. Unlike the simplified approach, the general ECL model depends on whether there has been a significant increase in credit risk. The Company considers the probability of default upon initial recognition of the financial asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition of the financial asset.

A significant increase in credit risk is assessed based on changes in the probability of default since initial recognition along with borrower specific qualitative information, or when loans are more than 30 days past due. Loans are considered impaired and in default when they are 90 days past due or there is sufficient doubt regarding the ultimate collectability of principal and/or interest. Loans that are 180 days past due are written down to the present value of the expected future cash flows. Impairment under the IFRS 9 general ECL model is assessed on an individual basis. In assessing the risk of default, the Company also incorporates available reasonable and supportive forward-looking information.

When credit risk is assessed as being low or when there has not been a significant increase in credit risk since initial recognition, the ECL is based on a 12-month ECL which represents the portion of lifetime ECL expected to occur from default events that are possible within 12 months after the reporting date. If a significant increase in credit risk has occurred throughout a reporting period, impairment is based on lifetime ECL.

Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Classification of financial liabilities

Financial liabilities are initially recorded at fair value and subsequently measured at amortized cost using the effective interest rate method with gains and losses recognized in net income in the period that the liability is derecognized, except for financial liabilities classified as FVTPL. These financial liabilities, including derivative liabilities and certain obligations, are subsequently measured at fair value with changes in fair value recorded in net income in the period in which they arise. Financial liabilities designated as FVTPL are recorded at fair value with changes in fair value attributable to changes in the Company's own credit risk recorded in net income.

IFRS 15 – Revenue from Contracts with Customers

IFRS 15 replaces the following standards: IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers and SIC-31 Revenue – Barter Transactions Involving Advertising Services. This new standard sets out the requirements for recognizing and disclosing revenue that apply to all contracts with customers. The core principle of IFRS 15 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects

the consideration to which the entity expects to be entitled in exchange for those goods and services. IFRS 15 also includes a cohesive set of disclosure requirements that would result in an entity providing comprehensive information about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

On December 1, 2018, the Company adopted IFRS 15 retrospectively in accordance with IAS 8 Accounting Policies, Changes in Estimates and Errors with restatement of comparative amounts.

The adoption of the new standard had the following impacts:

Initial franchise fees, master franchise fees, transfer fees and renewal fees: Under previous guidance, the Company recognized these fees when all material obligations and services were performed. Under the new guidance, the Company defers these fees and recognizes them over the term of the related franchise agreement. This has no impact on the amount or timing of cash flows.

Promotional funds: Under the previous guidance, the Company did not reflect promotional funds collected from franchisees and the related promotional expenditures in the consolidated statements of income. Under the new standard, the promotional funds collected, and the related expenditures are reported on a gross basis in the consolidated statements of income. To the extent that promotional funds received exceed the related promotional expenditures, the excess contributions will be recorded in accounts payable and accrued liabilities.

Costs to obtain a contract: Under the new guidance, incremental costs to obtain a contract have to be deferred if they are expected to be recoverable, unless their amortization period would be less than one year, in which case a practical expedient can be used to expense them as incurred. Accordingly, the Company now recognizes those costs as an asset when incurred and amortizes this asset over the term of the related franchise agreement.

Gift cards: There is a change for some of the gift card programs which were being accounted for based on the remote likelihood of a gift card being redeemed. Following the adoption of the new standard, all of the gift card programs now record expected breakage income proportionately as gift cards are redeemed.

Restaurant construction and renovation: Restaurant construction and renovation revenue was previously recognized by reference to the stage of completion of the contract activity; under the new standard, the criteria for recognizing revenue over time are not met, and therefore, the Company now recognizes the revenue for these services at a point in time, when the construction and renovation is completed.

Impact on the financial statements

The following tables show the adjustments recognized for each line item impacted by the change.

Condensed interim consolidated statements of income

	Three months ended August 31, 2018				**Nine months ended August 31, 2018**

The Company's accounting policies are summarized below:

Revenue from franchise locations

i) Royalties are based either on a percentage of gross sales as reported by the franchisees or on a fixed monthly fee. They are recognized on an accrual basis in accordance with the substance of the relevant agreement, as they are earned.

ii) Promotional fund contributions are based on a percentage of gross sales as reported by the franchisees. Corresponding promotional fund transfers to the promotional funds are reported separately and included in accounts payable and accrued liabilities. The Company is not entitled to retain these promotional fund payments received and is obligated to transfer these funds to be used solely for use in promotional and marketing-related costs for specific restaurant banners. The Company sometimes charges a fee for the administration of the promotional funds.

iii) Initial franchise fees are recognized on a straight-line basis over the term of the franchise agreement as the performance obligation relating to franchise rights is fulfilled. Amortization begins once the restaurant has opened.

iv) Upfront fees related to master license agreements are recognized over the term of the master license agreements on a straight-line basis.

v) Renewal fees and transfer fees are recognized on a straight-line basis over the term of the related franchise agreement.

vi) Restaurant construction and renovation revenue is recognized when the construction and renovation is completed.

vii) The Company earns rent revenue on certain leases it holds and sign rental revenue. Rental income is recognized on a straight-line basis over the term of the relevant lease in accordance with IAS 17 Leases.

viii) The Company recognizes breakage income proportionately as each gift card is redeemed, based on the historical redemption pattern of the gift cards. The Company also charges various program fees to its franchisees as gift cards are redeemed. Notably, this does not apply to gift card liabilities assumed in a business acquisition, which are accounted for at fair value at acquisition date.

ix) The Company receives considerations from certain suppliers. Fees are generally earned based on the value of purchases during the period. Agreements that contain an initial upfront fee, in addition to ongoing fees, are recognized on a straight-line basis over the term of the respective agreement. Supplier contributions are recognized as revenue as they are earned and are recorded in franchising revenue.

Revenue from food processing, distribution and retail

i) Food processing, distribution and retail revenue is recognized when the customer takes control of the product, which usually occurs upon shipment or receipt of the goods by the customer, depending on the specific terms of the agreement.

Revenue from corporate-owned locations

i) Revenue from corporate-owned locations is recorded when goods are delivered to customers.

IFRIC 22 – Foreign Currency Transaction and Advance Consideration

In December 2016, the IASB issued IFRIC 22 which provides an interpretation on how to determine the date of the transaction when applying the standard on foreign currency transactions, IAS 21. The interpretation applies where an entity pays or receives consideration in advance for foreign currency-denominated contracts. The date of the transaction determines the exchange rate to be used on initial recognition of the related asset, expense or income. This Interpretation provides guidance for when a single payment or receipt is made, as well as for situations where multiple payments or receipts are made and aims to reduce diversity in practice. These interpretations did not have a significant impact on the Company's financial statements.

Other

The Company has re-assessed the accounting of some of the processing, distribution and retail segment expenses totalling $5.2 million and $8.6 million for the three and nine-month periods ended August 31, 2018. These costs were previously reported within Revenue and are now reported under Operating expenses since they are necessary for bringing finished goods to their present location and condition. As a result of this change, the Company's revenues and operating expenses increased by $5.2 million and $8.6 million for the comparative three and nine-month periods respectively.

Assets held for sale

Judgment is required in determining whether an asset meets the criteria for classification as "assets held for sale" in the condensed consolidated interim statements of financial position. Criteria considered by management include the existence of and commitment to a plan to dispose of the assets, the expected selling price of the assets, the expected timeframe of the completion of the anticipated sale and the period of time any amounts have been classified within assets held for sale. The Company reviews the criteria for assets held for sale each quarter and reclassifies such assets to or from this category as appropriate. In addition, there is a requirement to periodically evaluate and record assets held for sale at the lower of their carrying value and fair value less costs to sell.

Economic environment risk

The business of the Company is dependent upon numerous aspects of a healthy general economic environment, from strong consumer spending to provide sales revenue, to available credit to finance the franchisees and the Company. In light of recent upheaval in economic, credit and capital markets, the Company's performance and market price may be adversely affected. The Company's current planning assumptions forecast that the quick service restaurant industry will be impacted by the current economic recession in the provinces in which it operates. However, management is of the opinion that the current economic situation will not have a major impact on the Company due to the following reasons: 1) the Company has strong cash flows; 2) quick service restaurants represent an affordable dining out option for consumers in an economic slowdown.

Financial instruments and financial risk exposure

In the normal course of business, the Company uses various financial instruments which by their nature involve risk, including market risk and the credit risk of non-performance by counterparties. These financial instruments are subject to normal credit standards, financial controls, risk management as well as monitoring procedures.

The classification, carrying value and fair value of financial instruments are as follows:

	August 31, 2019		November 30, 2018	
(In thousands $)	**Carrying amount**	**Fair value**	Carrying amount	Fair value
	$	**$**	$	$
Financial assets				
Loans receivable	**7,619**	**7,619**	8,104	8,104
Financial liabilities				
Long-term debt [1]	**558,887**	**560,494**	266,087	268,954

[1] Excludes promissory notes, contingent consideration and obligations to repurchase non-controlling interests

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is established based on market information available at the date of the consolidated statement of financial position. In the absence of an active market for a financial instrument, the Company uses the valuation methods described below to determine the fair value of the instrument. To make the assumptions required by certain valuation models, the Company relies mainly on external, readily observable market inputs. Assumptions or inputs that are not based on observable market data are used in the absence of external data. These assumptions or factors represent management's best estimates of the assumptions or factors that would be used by market participants for these instruments. The credit risk of the counterparty and the Company's own credit risk have been taken into account in estimating the fair value of all financial assets and financial liabilities, including derivatives.

The following methods and assumptions were used to estimate the fair values of each class of financial instruments:

Loans receivable – The loans receivable generally bear interest at market rates and therefore it is management's opinion that the carrying value approximates the fair value.

Long-term debt – The fair value of long-term debt is determined using the present value of future cash flows under current financing agreements based on the Company's current estimated borrowing rate for a similar debt.

Promissory notes

The Company issued as part of its consideration for the acquisition of Houston Avenue Bar & Grill and Industria Pizzeria + Bar promissory notes to the vendors and the minority shareholders of 10220396 Canada Inc. These promissory notes are subject to earn-out provisions, which are based on future earnings. These promissory notes are repayable in October 2019 and June 2022. These promissory notes have been recorded at fair value and are remeasured on a recurring basis. Of the $5.1 million promissory notes, $2.0 million is subject to an earn-out provision.

A discounted cash flow method was used to capture the present value of the expected future economic benefits that will flow out of the Company, with respect to these promissory notes. These notes are subject to significant unobservable inputs such as discount rates and projected revenues and EBITDA. An increase or decrease by 1% in the discount rates used would have an impact of $0.1 million on the fair value, as at August 31, 2019 (November 30, 2018 – $0.1).

A fair value remeasurement loss of $0.3 million (2018 – gain of $0.5 million) was recorded for these promissory notes for the three-month period ended August 31, 2019 and a gain of $2.0 million (2018 – loss of $0.8 million) for the nine-month period ended August 31, 2019.

Contingent consideration on acquisitions

The Company issued as part of its consideration for the acquisition of Yuzu Sushi and Allô! Mon Coco contingent considerations to the vendors. These contingent considerations are subject to earn-out provisions, which are based on future earnings and are repayable in August 2021 for Yuzu Sushi and October 2020 and January 2022 for Allô! Mon Coco. These contingent considerations have been recorded at fair value and are remeasured on a recurring basis.

Obligations to repurchase non-controlling interests

The Company has entered into an agreement to purchase the shares of a minority interest shareholder of 9974644 Canada Inc. at the option of the holder at any time after December 9, 2017. The consideration is based on a multiplier of EBITDA, as prescribed by the terms of the shareholder agreement. The Company records a liability at fair value (note 7 of the financial statement) which is remeasured at each reporting period.

A fair value remeasurement loss of $0.1 million for the three-month period (2018 – loss of $0.3 million) and loss of $nil for the nine-month period ended August 31, 2019 (2018 – loss of $nil was recorded for this non-controlling interest obligation.

The Company, in conjunction with the acquisition of Houston Avenue Bar & Grill and Industria Pizzeria + Bar, entered into an agreement to acquire the non-controlling interest in 10220396 Canada Inc. in June 2022. The consideration to be paid for this acquisition will be based on future earnings. The Company recorded a liability at fair value (note 7 of the financial statements) which is remeasured at each reporting period.

A discounted cash flow method was used to capture the present value of the expected future economic benefits that will flow out of the Company with respect to this obligation. The non-controlling interest buyback obligation is subject to significant unobservable inputs such as a discount rate and projected EBITDA. An increase or decrease by 1% in the discount rates used would have an impact on the carrying amount of $nil as at August 31, 2019 (November 30, 2018 – $0.1 million).

A fair value re-measurement gain of $0.8 million for the three-month ended (2018 – loss of $0.4 million) and $0.3 million for the nine-month period ended August 31, 2019 (2018 – loss of $0.4 million) was recorded for this non-controlling interest obligation.

Fair value hierarchy

	Level 3	
(In thousands $)	**August 31, 2019**	**November 30, 2018**
Financial liabilities		
Promissory notes related to the acquisition of Houston Avenue Bar & Grill and Industria Pizzeria + Bar	**5,084**	7,034
Contingent consideration on acquisitions	**3,887**	—
Non-controlling interest options	**2,182**	2,495
Financial liabilities	**11,153**	9,529

Liquidity risk

Liquidity risk refers to the possibility of the Company not being able to meet its financial obligations when they become due. The Company has contractual and fiscal obligations as well as financial liabilities and is therefore exposed to liquidity risk. Such risk can result, for example, from a market disruption or a lack of liquidity. The Company actively maintains its credit facility to ensure it has sufficient available funds to meet current and foreseeable financial requirements at a reasonable cost.

As at August 31, 2019, the Company had an authorized revolving credit facility for which the available amount may not exceed $650.0 million (November 30, 2018 – $500.0 million) to ensure that sufficient funds are available to meet its financial requirements.

The following are the contractual maturities of financial liabilities as at August 31, 2019:

(In thousands $)	Carrying amount	Contractual cash flows	0 to 6 months	6 to 12 months	12 to 24 months	Thereafter
	$	$	$	$	$	$
Accounts payable and accrued liabilities	**88,851**	**88,851**	**88,851**	**—**	**—**	**—**
Long-term debt (note 7) (1)	**570,040**	**571,647**	**5,776**	**4**	**552,535**	**13,332**
Interest on long-term debt (1)	**n/a**	**36,152**	**9,431**	**9,431**	**17,290**	**—**
	658,891	**696,650**	**104,058**	**9,435**	**569,825**	**13,332**

(1) When future interest cash flows are variable, they are calculated using the interest rates prevailing at the end of the reporting period.

Outlook

In the very short term, management's primary focus will be striving to produce positive same store sales while alleviating some of the financial pressure on its franchise partners by optimizing processes and sourcing products at prices that are stable and competitive. Innovation, quality of food and of customer service in each of our outlets and maximizing the value offered to our customers are going to be main areas of focus for the coming year.

Management will also focus on the integration of the recently acquired brands. Following the closing of those acquisitions, MTY is well-positioned to expand in Canada and in the United States, including growing its existing Canadian brands into the United States.

The restaurant industry will remain challenging in the future, and management believes that the focus on the food offering, innovation, consistency and store design will give MTY's restaurants a stronger position to face challenges. Given this difficult competitive context in which more restaurants compete for a finite amount of consumer dollars, each concept needs to preserve and improve the relevance of its offer to consumers.

Management will maintain its focus on maximizing shareholder value by adding new locations of some of its existing concepts and remains committed to seek potential acquisitions to increase its market share.

Controls and Procedures

Disclosure controls and procedures

Disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in reports filed with the securities regulatory authorities are recorded, processed, summarized and reported in a timely fashion. The disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in such reports is then accumulated and communicated to the Company's management to ensure timely decisions regarding required disclosure. Management regularly reviews disclosure controls and procedures; however, they cannot provide an absolute level of assurance because of the inherent limitations in control systems to prevent or detect all misstatements due to error or fraud.

The Company's Chief Executive Officer and the Chief Financial Officer have concluded that the design of the disclosure controls and procedures ("DC&P") as at August 31, 2019 provide reasonable assurance that significant information relevant to the Company, including that of its subsidiaries, is reported to them during the preparation of disclosure documents.

Internal controls over financial reporting

The Chief Executive Officer and the Chief Financial Officer are responsible for establishing and maintaining internal controls over financial reporting. The Company's internal controls over financial reporting are designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

Over the course of 2018, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's internal controls over financial reporting were not effective due to the identification of a material weakness related to controls over the accounting for non-routine and complex transactions, including accounting for purchase price allocations in respect of business acquisitions. The Company's review process did not sufficiently prevent or detect errors in the data inputs used or in the calculation of fair value. This control weakness lead to the correction of a preliminary purchase price. In the third quarter of 2018, the board of directors, Chief Executive Officer, and Chief Financial Officer implemented processes that significant purchase price allocations will be reviewed by a third-party expert to ensure the accuracy of the fair value of assets acquired and liabilities assumed in a business acquisition.

Since these changes, no purchase price allocations have been fully initiated and completed as at August 31, 2019, which would allow the Company to test the control. Management has added resources and tools in the internal audit department to test and assess the control environment in the existing and newly acquired businesses. Material weaknesses cannot be considered remediated until the remedial controls operate for a sufficient period of time and management has concluded through testing, that these controls are operating effectively. Management expects these weaknesses to be remediated in the next quarter.

Notwithstanding the outstanding assessment regarding the remediation actions as described above, the Chief Executive Officer and the Chief Financial Officer, together with Management have concluded the financial statements included in this report present fairly in all material respects its financial position, results of operations, capital position and cash flows for the periods presented in accordance with IFRS.

The Chief Executive Officer and the Chief Financial Officer, together with Management, have concluded after having conducted an evaluation and to the best of their knowledge that, as at August 31, 2019, other than the material weakness mentioned above, no change in the Company's internal controls over financial reporting occurred that could have materially affected or is reasonably likely to materially affect the Company's internal controls over financial reporting.

Limitations of Controls and Procedures

Management, including the President and Chief Executive Officer and Chief Financial Officer, believes that any disclosure controls and procedures or internal controls over financial reporting, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, they cannot provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been prevented or detected. These inherent limitations include the reality judgments in decision-making can be faulty, and that breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by unauthorized override of the control. The design of any control system of controls is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Accordingly, because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Limitation on scope of design

The Company's management, with the participation of its President and Chief Executive Officer and Chief Financial Officer, has limited the scope of the design of the Company's disclosure controls and procedures and internal controls over financial reporting to exclude controls, policies and procedures and internal controls over financial reporting of the recently acquired operations:

Percentage of MTY Food Group Inc.	Company's assets	Current assets	Non-current assets	Current Liabilities	Long-term liabilities	Revenues	Net earnings
Papa Murphy's	20%	10%	21%	7%	6%	7%	1%
SweetFrog	3%	0%	3%	2%	1%	2%	8%
Casa Grecque	2%	4%	1%	1%	0%	4%	1%
South Street Burger	0%	1%	0%	0%	0%	1%	n/a
Allo Mon Coco	2%	0%	2%	0%	1%	0%	1%
Yuzu Sushi	2%	1%	2%	1%	0%	0%	0%

The Company's management, with the participation of its President and Chief Executive Officer and Chief Financial Officer, has limited the scope of the design of the Company's disclosure controls and procedures and internal controls over financial reporting to exclude controls, policies and procedures and internal controls over financial reporting of certain special purpose entities ("SPEs") on which the Company has the ability to exercise *de facto* control and which have as a result been consolidated in the Company's consolidated financial statements. For the period ended August 31, 2019, these SPEs represent 0% of the Company's current assets, 0% of its non-current assets, 0% of the Company's current liabilities, 0% of long-term liabilities, 1% of the Company's revenues and 0% of the Company's net earnings.
