Notice-and-Access

The Corporation has elected to use “notice-and-access” rules (“Notice-and-Access”) under National Instrument 54-101 *Communication with Beneficial Owners of Securities of a Reporting Issuer* for distribution of the Meeting Materials (as defined below) to shareholders who do not hold shares of the Corporation in their own names (“Beneficial Shareholders”). Notice-and-Access is a set of rules that allows issuers to post electronic versions of the Meeting Materials (as defined below) on SEDAR+ and on one additional website, rather than mailing paper copies. The use of Notice-and-Access is more environmentally friendly as it helps reduce paper use; it also reduces the Corporation’s printing and mailing costs. Beneficial Shareholders may obtain further information about Notice-and-Access by contacting **Computershare Investors Services Inc. toll-free at 1-866-962-0498 or direct, from outside of North America at (514) 982-8716**. The Corporation is not using Notice-and-Access for delivery to shareholders who hold their shares directly in their respective names (“Registered Shareholders”). Registered Shareholders will receive paper copies of the Proxy-Related Materials via prepaid mail.

GENERAL PROXY INFORMATION

Solicitation of Proxies

The solicitation of proxies will be primarily by mail, but proxies may be solicited personally or by telephone by directors, officers and regular employees of the Corporation. The Corporation will bear all costs of this solicitation. We have arranged for intermediaries to forward the meeting materials to Beneficial Shareholders held of records by those intermediaries and we may reimburse the intermediaries for their reasonable fees and disbursements in that regard. "Beneficial Shareholders" means shareholders who do not hold Common Shares in their own name and "intermediaries" refers to brokers, investment firms, clearing houses and similar entities that own securities on behalf of Beneficial Shareholders.

The Corporation is not relying on the notice-and-access provisions of NI 54-101 to send Proxy-Related Materials to Registered Shareholders.

Appointment of Proxyholders

The individuals named in the accompanying form of proxy (the "Proxy") are directors or officers of the Corporation. **If you are a shareholder entitled to vote at the Meeting, you have the right to appoint a person or company other than either of the persons designated in the Proxy, who need not be a shareholder, to attend and act for you and on your behalf at the Meeting. You may do so either by inserting the name of that other person in the blank space provided in the Proxy or by completing and delivering another suitable form of proxy.**

Voting by Proxyholder

The persons named in the Proxy will vote the Common Shares represented thereby in accordance with your instructions on any ballot that may be called for. If you specify a choice with respect to any matter to be acted upon, your Common Shares will be voted accordingly. The Proxy confers discretionary authority on the persons named therein with respect to:

- (a) each matter or group of matters identified therein for which a choice is not specified, other than the appointment of an auditor and the election of directors;
- (b) any amendment to or variation of any matter identified therein; and

- (c) any other matter that properly comes before the Meeting.

In respect of a matter for which a choice is not specified in the Proxy, the persons named in the Proxy will vote the Common Shares represented by the Proxy for the approval of such matter.

Registered Shareholders

Registered Shareholders may wish to vote by proxy whether or not they are able to attend the Meeting. Registered Shareholders electing to submit a proxy may do so by:

- (a) completing, dating and signing the enclosed form of proxy and returning it to the Corporation's transfer agent, Computershare, by mail, courier or hand delivered to 8th Floor, 100 University Avenue, Toronto, Ontario, Canada M5J 2Y1;
- (b) using a touch-tone phone to transmit voting choices to a toll-free number at 1-866-732-8683 for Canada and the United States or 1-312-588-4290 for all other countries and following the instructions of the voice response system by providing the control number on the proxy form on the lower left-hand side. Instructions are then conveyed by use of the touchtone selections over the telephone; or
- (c) using the internet at <http://www.investorvote.com>. Registered Shareholders must follow the instructions that appear on the screen and refer to the enclosed proxy form for the control number;

in all cases ensuring that the proxy is received by no later than 1:00 p.m. (Eastern time) on April 30, 2025, or if the Meeting is adjourned or postponed, not less than 48 hours, excluding Saturdays, Sundays and statutory holidays, before the commencement of such adjourned or postponed meeting.

Registered Shareholders who wish to appoint a third-party proxyholder to represent them at the online meeting **must submit their proxy or voting instruction form (if applicable) prior to registering their proxyholder. Registering your proxyholder is an additional step once you have submitted your proxy or voting instruction form. Failure to register the proxyholder will result in the proxyholder not being permitted to participate and vote at the Meeting.** To register a proxyholder, shareholders MUST visit <http://www.computershare.com/MTY> by 1:00 p.m. (Eastern time) on April 30, 2025, and provide Computershare with their proxyholder's contact information, so that Computershare may confirm the proxyholder before the Meeting by providing a 4-letter control code. If a third party proxyholder is attending the meeting in person, you DO NOT need to register the appointment.

If a shareholder who has submitted a proxy attends the meeting via the webcast, any votes cast by such shareholder on the online ballot will be counted and the submitted proxy will be disregarded.

Without a 4-letter control code, proxyholders will not be able to participate online at the meeting.

Beneficial Shareholders

The following information is of significant importance to shareholders who do not hold Common Shares in their own name. Beneficial Shareholders should note that the only proxies that can be recognized and acted upon at the Meeting are those deposited by Registered Shareholders (those whose names appear on the records of the Corporation as the registered holders of Common Shares).

If Common Shares are listed in an account statement provided to a shareholder by a broker, then in almost all cases those Common Shares will not be registered in the shareholder's name on the records of the Corporation. Such Common Shares will more likely be registered under the names of the shareholder's broker or an agent of that broker. In Canada, the vast majority of such Common Shares are registered under the name of CDS & Co. (the registration name for The Canadian Depository for Securities Limited, which acts as a nominee for many Canadian brokerage firms), and in the United States, under the name of Cede & Co. as nominee for The Depository Trust Company (which acts as depository for many U.S. brokerage firms and custodian banks).

Intermediaries are required to seek voting instructions from Beneficial Shareholders in advance of shareholders' meetings. Every intermediary has its own mailing procedures and provides its own return instructions to clients.

There are two kinds of Beneficial Shareholders, those who object to their name being made known to the issuers of securities which they own (called OBOs for Objecting Beneficial Owners) and those who do not object to the issuers of the securities they own knowing who they are (called NOBOs for Non-Objecting Beneficial Owners).

The Corporation is taking advantage of the provisions of NI 54-101 that permit it to directly deliver proxy-related materials to its NOBOs. As a result, NOBOs can expect to receive a scannable VIF from our transfer agent, Computershare. These VIFs are to be completed and returned to Computershare in the envelope provided or by facsimile. In addition, Computershare provides both telephone voting and internet voting as described on the VIF itself which contain complete instructions. Computershare will tabulate the results of the VIFs received from NOBOs and will provide appropriate instructions at the Meeting with respect to the shares represented by the VIFs they receive.

These security holder materials are being sent to both registered and non-registered owners of the securities of the Corporation. If you are a non-registered owner, and the Corporation or its agent has sent these materials directly to you, your name and address and information about your holdings of securities, have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding on your behalf.

By choosing to send these materials to you directly, the Corporation (and not the intermediary holding on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your voting instructions as specified in your request for voting instructions.

Beneficial Shareholders who are OBOs should follow the instructions of their intermediary carefully to ensure that their Common Shares are voted at the Meeting.

The form of proxy supplied to you by your broker will be similar to the proxy provided to Registered Shareholders by the Corporation. However, its purpose is limited to instructing the intermediary on how to vote on your behalf. Most brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("Broadridge") in Canada and in the United States. Broadridge mails a VIF in lieu of a proxy provided by the Corporation. The VIF will name the same persons as the Corporation's Proxy to represent you at the Meeting. You have the right to appoint a person (who need not be a Beneficial Shareholder of the Corporation), other than the persons designated in the VIF, to represent you at the Meeting. To exercise this right, you should insert the name of the desired representative in the blank space provided in the VIF. The completed VIF must then be returned to Broadridge by mail or facsimile or given to Broadridge by phone or over the internet, in accordance with Broadridge's instructions. Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Common Shares to be represented at the Meeting. If you receive a VIF from Broadridge, you cannot use it to vote Common Shares directly at the Meeting. The VIF must be completed and returned to Broadridge, in accordance with its instructions, well in advance of the Meeting in order to have the Common Shares voted.

Although as a Beneficial Shareholder you may not be recognized directly at the Meeting for the purposes of voting Common Shares registered in the name of your broker, you, or a person designated by you, may attend at the Meeting as proxyholder for your broker and vote your Common Shares in that capacity. If you wish to attend at the Meeting and indirectly vote your Common Shares as proxyholder for your broker, or have a person designated by you do so, you should enter your own name, or the name of the person you wish to designate, in the blank space on the voting instruction form provided to you and return the same to your broker in accordance with the instructions provided by such broker, well in advance of the Meeting.

Alternatively, you can request in writing that your broker send you a legal proxy which would enable you, or a person designated by you, to attend at the Meeting and vote your Common Shares.

Beneficial Shareholders wishing to attend the meeting virtually who do not have a 15-digit control number or 4-letter control code will only be able to attend as a guest which allows them to listen to the meeting but not to vote or submit questions.

To attend and vote at the Meeting virtually, United States beneficial holders must first obtain a valid legal proxy from their broker, bank or other agent and then register in advance to attend the hybrid Meeting. Follow the instructions from your broker or bank included with these proxy materials, or contact your broker or bank to request a legal proxy form. After first obtaining a valid legal proxy from your broker, bank or other agent, to then register to attend the hybrid Meeting, you must submit a copy of your legal proxy to Computershare. Requests for registration should be directed to:

Computershare Investors Services Inc.
100 University Avenue
8th Floor
Toronto, Ontario
M5J 2Y1
OR

Email at service@computershare.com

Requests for registration must be labelled as “Legal Proxy” and be received no later than 1:00 p.m. (Eastern time) on April 30, 2025. You will receive a confirmation of your registration by email after Computershare receives your registration materials. You may attend the hybrid Meeting and vote your shares by filling out the online registration form available at <https://qrco.de/bfmKRI> with the requested information. Please note that you are required to register your appointment at <http://www.computershare.com/MTY>.

Penalties and Sanctions

No proposed director of the Corporation has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority, or been subject to any other penalties or sanctions imposed by a court or regulatory body that would be likely to be considered important to a reasonable securityholder in deciding whether to vote for a proposed director.

Cease Trade Orders and Bankruptcies

No proposed director of the Corporation is, as of the date of this Information Circular, or has been, within ten years before the date of this Information Circular, a director or chief executive officer or chief financial officer of any

company (including the Corporation) that: (i) was subject to an order that was issued while the proposed director was acting in the capacity as director, chief executive officer or chief financial officer; or (ii) was subject to an order that was issued after the proposed director ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while that person was acting in the capacity as director, chief executive officer or chief financial officer.

No proposed director of the Corporation is, as at the date of this Information Circular, or has been, within ten years before the date of this Information Circular, a director or executive officer of any company (including the Corporation) that, while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

For the purpose of the above paragraphs, “order” means a cease trade order, an order similar to a cease trade order, or an order that denied the relevant company access to any exemption under securities legislation that was in effect for a period of more than 30 consecutive days.

Personal Bankruptcies

No proposed director of the Corporation has, within the ten years before the date of this Information Circular, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the proposed director.

Conflicts of Interest

Conflicts of interest may arise as a result of the directors of the Corporation also holding positions as directors or officers of other companies. Some of the directors and proposed directors of the Corporation have been and will continue to be engaged in the identification and evaluation of assets, businesses and companies on their own behalf and on behalf of other companies, and situations may arise where the directors and officers of the Corporation will be in direct competition with the Corporation. Conflicts, if any, will be subject to the procedures and remedies provided under the Canada Business Corporations Act (“CBCA”). Directors who are in a position of conflict will abstain from voting on any matters relating to the conflicting situation.

In addition, the Board has adopted a policy with respect to related person transactions to assist the Board in reviewing and ratifying related person transactions and complying with requisite disclosure obligations. The Corporation’s related person transaction policy is available on the Corporation’s website.

Majority Voting for Directors

The election of directors at the Meeting will be governed by the majority voting requirements of the CBCA. The CBCA requires that, in an uncontested election (such as the election planned for the Meeting), nominees must receive a majority of the votes cast for their election in order to be elected. If a director nominee does not receive a majority of the votes cast for their election, such nominee will not be elected and the director position will remain vacant, or, in the case of incumbent directors (which comprise all of the Corporation’s director nominees at the Meeting), such director may continue in office until the earlier of the 90th day after the vote and the day on which his or her successor is appointed or elected. Given the majority voting requirements of the CBCA, the Corporation’s majority voting policy is no longer necessary and it is longer of any force or effect.

SHAREHOLDERS ADVISORY VOTE ON THE BOARD’S APPROACH TO EXECUTIVE COMPENSATION

At the Meeting, the shareholders will be called upon to vote FOR or AGAINST the following resolution: “That, on an advisory basis and not to diminish the role and responsibilities of directors, the shareholders accept the Board’s approach to executive compensation disclosed in this Information Circular”. The Board of Directors believes that shareholders should have the opportunity to fully understand the objectives and principles that the Board has used in its approach to executive compensation and to have an advisory vote on the Board’s approach to executive compensation. To assist you in making your voting decision, we refer you to the “Compensation Discussion and Analysis” (“CD&A”). The CD&A describes the Board’s approach to executive compensation, the details of the

compensation program and the Board's compensation decisions for the fiscal year ended on November 30, 2024. This disclosure has been approved by the Board. As this is an advisory vote, the results will not be binding upon the Corporation. However, the Board will consider the results of the vote, as appropriate, when reviewing executive compensation in the future. Management and the Board of Directors recommend that the shareholders vote FOR this "Say on Pay" resolution.

APPOINTMENT OF AUDITOR

PricewaterhouseCoopers LLP, a partnership of CPAs., will be nominated at the Meeting for appointment as auditor of the Corporation to hold office until the next annual general meeting of the shareholders. The persons named in the enclosed form of proxy (provided the same is duly executed in their favour and is duly deposited) intend to vote for the appointment of PricewaterhouseCoopers LLP as auditor of the Corporation. PricewaterhouseCoopers LLP was first appointed by the Board of Directors as the auditor of the Corporation on March 14, 2018.

FINANCIAL STATEMENTS

The financial statements of the Corporation for the fiscal year ended November 30, 2024, and the auditor's report thereon will be placed before the shareholders at the Meeting for their consideration. No formal action will be taken at the Meeting to approve the financial statements. If any shareholder has questions regarding such financial statements, such questions may be brought forward at the Meeting.

CORPORATE GOVERNANCE

Corporate governance refers to the policies and structure of the board of directors of a corporation, whose members are elected by and are accountable to the shareholders of the corporation. Corporate governance encourages establishing a reasonable degree of independence of the board of directors from executive management and the adoption of policies to ensure the board of directors recognizes the principles of good management. The Board of the Corporation is committed to sound corporate governance practices; as such practices are both in the interests of shareholders, and help to contribute to effective and efficient decision-making.

Constitution and Independence of the Board

On an annual basis, the Board reviews each relationship that a director has with the Corporation in order to determine whether the director is or remains independent. Directors are considered to be independent if they have no direct or indirect material relationship with the Corporation. A "material relationship" is defined in National Instrument 52-110 *Audit Committees* to mean any relationship which could, in the view of the Board, be reasonably expected to interfere with the exercise of a director's independent judgment.

The Board is currently comprised of seven persons, of whom four are independent directors. The following table outlines the Corporation's current independent and non-independent, executive directors and the basis for a determination that a director is non-independent.

Independent and Non-Independent Directors

Eric Lefebvre	Non-Independent (Mr. Lefebvre serves as Chief Executive Officer of the Corporation)

Dickie Orr	Independent
Claude St-Pierre	Non-Independent (Mrs. St-Pierre serves as Secretary of the Corporation and served as Chief Operating Officer of the Corporation until November 2018 and director and secretary of the Corporation after this date)

Stanley Ma, Chairman of the Board and President, Claude St-Pierre, Secretary and Eric Lefebvre, Chief Executive Officer, are not independent members of the Board. Individual directors may engage an outside advisor at the expense of the Corporation in appropriate circumstances, and the independent directors may retain independent advice on those occasions as appropriate.

The strategies are to be reviewed and updated as required.

Included in the development of these long-term strategies will be annual strategic, operating and capital plans. The strategic plan is to take into account, among other things, the opportunities and risks of the Corporation's business.

At least annually the Board will consider a strategic plan presented by management which takes into account, among other things, the opportunities and risks of the business.

Identification and Management of Risks

The Board has the responsibility to identify the principal risks of the Corporation's business and, with senior management, to establish systems and procedures (including internal control and management information systems) to ensure that these risks are monitored. These systems and procedures should include the effective management of the Corporation's assets and financial resources and should ensure compliance with all regulatory obligations.

When appropriate or necessary, the Board is responsible for removing the Chief Executive Officer and selecting a successor.

Internal Control

The Board, through the Audit Committee, is responsible for the internal control and management information systems of the Corporation.

Stewardship of the Corporation

The Board is empowered by governing corporate law, the Corporation's By-laws and the Corporation's Corporate Governance Policies to manage, or supervise, the management of, the affairs and business of the Corporation.

The Board performs its functions through quarterly and special meetings and has delegated certain of its responsibilities to the Audit Committee described below. In addition, the Board has established policies and procedures that limit the ability of management to carry out certain specific activities without the prior approval of the Board.

Long-term strategies and annual operating and capital plans with respect to the Corporation's operations are developed by senior management and reviewed and approved by the Board.

The Board, through the Audit Committee, has the responsibility to identify the principal risks of the Corporation's business. It works in coordination with management to implement policies to identify the risks and to establish systems and procedures to ensure that these risks are monitored.

The Board, with the assistance of the Compensation, Nomination and Governance Committee ("CN&G"), reviews and discusses succession planning for senior management positions as part of the Corporation's planning process. All appointments of senior management are approved by the Board.

The Board has developed written position descriptions for the Board chair and the chair of each Board committee. The Board has also, together with the Chief Executive Officer, developed a written position description for the Chief Executive Officer as well as Chief Financial Officer. On February 13, 2025, the Board approved a written position description for Lead Independent Director and appointed Mr. Murat Armutlu for the role effective that same day.

Procedures are in place to ensure proper dissemination of news releases, and that those shareholders who request information about the Corporation receive it in a timely manner. Inquiries by shareholders are directed to and dealt with by senior management.

The Corporation's external auditor reports directly to the Audit Committee. In its regular meetings with the external auditor, the Audit Committee discusses, among other things, the Corporation's financial statements and the adequacy and effectiveness of the Corporation's internal controls and management information systems.

Orientation and Continuing Education

New directors, as part of the orientation program, have the opportunity to meet with senior management to discuss the business of the Corporation, receive corporate information, Board policies and historical and current operating and financial information and may tour selected offices and facilities of the Corporation. Directors are regularly briefed by senior management team on strategic issues affecting the Corporation, and these briefings include reviews of the competitive environment, the Corporation's performance relative to its peers, and any other developments that could materially affect the Corporation's business. The Board, with the assistance of the CN&G, will also ensure that directors are able to attend conferences or other similar events to participate in continuing education in matters relevant to their role as directors.

Ethical Business Conduct

The Board has found that the fiduciary duties placed on individual directors by the Corporation's governing corporate legislation and the common law and the restrictions placed by applicable corporate legislation on an individual director's participation in decisions of the Board in which the director has an interest have been sufficient to ensure that the Board operates independently of management and in the best interest of the Corporation.

Nomination of Directors

The Board considers its size each year when it considers the number of directors to recommend to the shareholders for election at the annual meeting of shareholders, taking into account the number required to carry out the Board's duties effectively and to maintain a diversity of views and experience.

A Compensation, Nomination and Governance Committee ("CN&G") was formed in March 2023. The CN&G is responsible to formulate and administer criteria for identifying, evaluating and recommending to the Board director candidates to stand for election at a meeting of shareholders or to fill a vacancy existing on the Board.

Committees

During the fiscal year ending November 30, 2024, the Board had no other committees than the Audit Committee and the CN&G which was formed in March 2023. The specific mandates attributed to these committees are set out in their respective charter; they have the power to make recommendations to the Board on issues relating to their area of expertise. This delegation to the committees does not relieve the Board of its responsibilities. Consequently, some of the measures and obligations of the Board described herein are or will in fact be established or assumed by the Board committees without lessening the Board's responsibility in that regard.

Audit Committee

The members of the Audit Committee are Murat Armutlu, Dickie Orr and Victor Mandel, all of whom are independent directors. A member of the audit committee is independent if the member has no direct or indirect material relationship with the Corporation. A material relationship means a relationship which could, in the view of the Corporation's Board, reasonably interfere with the exercise of a member's independent judgement. All members of the Audit Committee are financially literate. A member of the audit committee is considered financially literate if he or she has the ability to read and understand a set of financial statements that present a breadth and level of complexity of

accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Corporation.

The Audit Committee's mandate and responsibilities are detailed in its Charter, and include assisting in the identification of the principal risks of the Corporation's business and, with the assistance of management, establishing procedures to ensure that these risks are monitored and managed; overseeing the work of the external auditor engaged for the purpose of preparing or issuing an audit report or related work; recommending to the Board the nomination and compensation of the external auditor; approving all non-audit services to be provided by the external auditor; and reviewing and recommending approval of the Corporation's financial statements, reviewing management's discussion and analysis and earnings press releases before the Corporation publicly discloses this information and satisfying itself that all regulatory compliance matters have been considered in the preparation of the financial statements of the Corporation. The most recent Audit Committee Charter was adopted on March 19, 2025, the full text of the Audit Committee Charter is attached as Schedule "A" to this Information Circular.

There have been no instances in which the Board has not accepted a recommendation of the Audit Committee to nominate or compensate any external auditor. All non-audit services provided to the Corporation or its subsidiaries by external auditors must be pre-approved by the Audit Committee.

Further information concerning the Audit Committee and its members is contained in the Corporation's Annual Information Form for the year ended November 30, 2024, under "Audit Committee Information" (page 43), incorporated by reference herein, and which is available on SEDAR+ under the Corporation's profile filed on February 14, 2025, and may be accessed at www.sedarplus.ca. In particular, details concerning the external auditor's fees for the past two years are shown at page 43 of the Annual Information Form.

Compensation, Nomination and Governance Committee

The CN&G is composed of three independent directors, who have each held executive management positions. As a result, the members of the CN&G committee have the relevant skills and experience necessary to enable the Committee to make recommendations to the Board of Directors as to the suitability of our compensation policies and practices.

The Committee's purpose is to assist the Board in its oversight of:

- Executive compensation;
- Management development and succession;
- Director compensation;
- Executive compensation disclosure;

In performing its duties, the Board has the authority to engage such advisors, including executive compensation consultants, as it considers necessary.

The Board is currently composed of seven (7) directors, of whom Murat Armutlu, Dickie Orr, Suzan Zalter and Victor Mandel are independent directors within the meaning set out in NI 58-101. Stanley Ma, Claude St-Pierre and Eric Lefebvre are not independent. All of the members of the Board are experienced participants in business or finance.

In August 2024, the Company retained the services of Hub International Limited to conduct an assessment of the competitiveness of its compensation packages for executive positions. The review was intended to assist the CN&G assess what similar companies are doing, understand best practices and ultimately determine what the best short and long-term approach is. The consultant has provided no other services to the company. Following a review of the information provided by the consultant and recommendations by the CN&G, the Board has concluded that no adjustments to its compensation policy were required at this time.

Fees paid to Hub International Limited during 2024 were \$10,000 (2023 – nil).

Assessments

Due to the minimal size of the Corporation's Board, no formal policy has been established to monitor the effectiveness of the directors, the Board and its Audit Committee. The Board as a whole is responsible for the Corporation's approach to corporate governance, committee and individual director effectiveness issues on a continuous basis. Mr. Stanley Ma, President of the Corporation, acts as Chairman of the Board. The Board considers this to be an appropriate role for Mr. Stanley Ma at this stage in the Corporation's development. The Board has functioned, and is of the opinion that it can continue to function, independently as required. When necessary or desirable, the Board will establish committees composed of members who are independent with respect to the issue to be determined.

The Board, together with the Chairman of the Board, monitors the size of the Board to ensure effective decision-making.

Term Limits

The Board has not adopted a formal term limit for directors. The Board strives to be constituted to achieve a balance between experience and the need for renewal and fresh perspective. The Board believes, however, that the imposition of director term limits on a board implicitly discounts the value of experience and continuity amongst Board members and runs the risk of excluding experienced and potentially valuable Board members as a result of an arbitrary determination. The Board believes that it is better served with a regular assessment of the effectiveness of the Board, Board committee and individual directors rather than on arbitrary term limits.

Corporate and Board Diversity

The Corporation recognizes the value of individuals with diverse attributes on the Board and in senior management positions. Diversity has always been an important part of the Corporation's culture and its operations to enable it to better understand and serve its consumers by ensuring that the composition of the organization reflects its wide customer base. The Corporation not only promotes gender diversity in the organization, but also, among others, ethnic, age, disability, language, sexual orientation and religious diversity and it has developed a code of conduct to make sure it continues to provide the same opportunities irrespective of gender or ethnicity. However, the Corporation does not believe that a written policy is the best way to achieve the Corporation's diversity or business objectives and consequently, the Corporation has not fixed any target nor adopted policies related to diversity, whether at the Board of Directors or senior management levels. We refer to diversity within "designated groups" as defined under Article 3 of the *Employment Equity Act* (Canada) which includes women, aboriginal peoples (being Indians, Inuit or Métis),

persons with disabilities and members of visible minorities (persons other than aboriginal peoples who are non-Caucasian in race or non-white in color) (“Visible Minorities”). “Persons with disabilities” is defined as meaning persons who have a long-term or recurring physical, mental, sensory, psychiatric or learning impairment and who: (i) consider themselves to be disadvantaged in employment by reason of that impairment; or (ii) believe that an employer or potential employer is likely to consider them to be disadvantaged in employment by reason of that impairment. This definition also includes persons whose functional limitations owing to their impairment have been accommodated in their current job or workplace.

In its search for candidates for positions as a member of the board, the Board would analyse candidates based on the skills and the qualities that the Board of Directors should consider, the needs at the Audit Committee level, without bias regarding any designated group. No target has been fixed with respect to any of the designated groups, the choice of candidates being more linked to the needs of the Corporation, the experience, the judgment, the values, the skills and personal qualities of the candidates. The Corporation has adopted the same principles regarding research and hiring of senior management.

Board Diversity

As of the date of this Information Circular:

Of our seven directors, two (28.6%) are women and two (28.6%) are members of visible minorities, none are either an aboriginal person or a person with disabilities.

Senior Management Diversity

For purposes of the CBCA diversity disclosure requirements, “senior management” has the same meaning as “executive officers” as defined under provincial and territorial rules in subsection 1.1(1) National Instrument 51-102 *Continuous Disclosure Obligations*. Our senior management consists of our CEO, our CFO, our CLO, our five COO’s and nineteen Vice Presidents.

As of the date of this Management Information Circular, of our twenty seven (27) senior management positions, nine (9) are held by women, representing 33% of senior management positions and four (4) are members of visible minorities, representing 15% of senior management positions. None of our senior management positions are held by a person with disabilities and none of our senior management positions are held by an aboriginal person.

Our “Named Executive Officers” (“NEO”), being our current CEO, our current CFO and three most highly compensated executive officers of the Corporation, including any of its subsidiaries, who each earned total compensation that exceed \$150,000 for the fiscal year ended November 30, 2024, are:

- Eric Lefebvre, Chief Executive Officer (since November 2018) and former Chief Financial Officer (from June 2012 to November 2018);
- Renée St-Onge, Chief Financial Officer (since November 2018) and former Controller (from May 2012 to November 2018);
- Jeff Smit, Chief Operating Officer, Kahala and Wetzel’s Pretzels (since November 2018);
- Marie-Line Beauchamp, Chief Operating Officer, Casual Dining Brands, Canada (since November 2018); and

Compensation Discussion and Analysis

The Corporation’s executive compensation program is administered by the Board of Directors, using recommendations for the CN&G Committee, and is designed to provide incentives for the sustainable enhancement of shareholder value. The overall objectives are to attract and retain qualified executives critical to the success of the Corporation, to provide fair and competitive compensation, to align the interest of management with those of the Shareholders and to reward corporate and individual performance by providing explicit links between all elements of compensation and performance.

The Corporation’s executive compensation program has three principal components:

- base salary;
- short-term cash incentives;
- long term incentives that can include cash incentive, stock options or other types of share-based compensation.

The determination and administration of base salaries or incentive bonuses, or both, are discussed in greater detail below. When appropriate to do so, short and long term incentive cash bonuses, are designed to add a variable component of compensation, in addition to stock options, based on corporate and individual performances for Named Executive Officers, and may or may not be awarded in any financial year. The Corporation has no other forms of compensation for its NEOs.

The Board, when determining cash compensation payable to a NEO, takes into consideration their experience in the restaurant industry, as well as their responsibilities and duties and contributions to the Corporation's success. Named Executive Officers receive a base cash compensation that the Board determines to be in line with that paid by similar reporting or non-reporting companies in the applicable geographical area and the Corporation's experience from past acquisitions, subject to the Corporation's financial resources.

In performing its duties, the Board has considered the implications of risks associated with the Corporation's compensation policies and practices. Considering its current compensation policies, the Corporation currently has no compensation policies or practices that would encourage an executive officer or other individual to take inappropriate or excessive risks.

All of the Company's executives, including the NEOs, directors and senior employees are subject to the Company's insider trading policy, which prohibits trading in the securities of the Company while in possession of material undisclosed information about the Company.

A NEO or director is permitted for his or her own benefit and at his or her own financial risk, to purchase financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars or units or exchange funds, that are designed to hedge or offset a decrease in the market value of equity securities granted as compensation or held, directly or indirectly, by the NEO or director.

The table below illustrates the proportion of each compensation component comprising the total direct compensation of the Named Executive Officers at target level for the fiscal year ending November 30, 2024:

	Fixed compensation	At-risk compensation	
	Base salary (%)	Target short-term cash incentive	Target long-term cash incentive
Eric Lefebvre	67%	33%	0%
Renée St-Onge	71%	29%	0%
Jeff Smit	71%	29%	0%
Jenny Moody	67%	33%	0%
Marie-Line Beauchamp	71%	29%	0%

No significant changes to the above compensation components are expected for 2025.

Compensation Objectives

The Board considers the following objectives when reviewing annual compensation: (i) retaining individuals critical to the growth and overall success of the Corporation; (ii) rewarding achievements of individuals; (iii) providing fair and competitive compensation; (iv) compensating individuals based on their performance; and (v) balancing the interests of management and shareholders of the Corporation. In order to achieve these objectives, the compensation paid to the Corporation's executive officers consists of three components: (i) a base salary; and, as the case may be, (ii) short- and/or long-term cash incentive; and/or (iii) a long-term incentive in the form of stock options under the Corporation's stock option plan.

Base Salary

The base salary of each of the Corporation's NEOs is set by the Board of Directors following an annual performance review and recommendations from the CN&G Committee. The Board considers the foregoing compensation philosophy, as well as the financial performance of the Corporation as a whole, in any review of base salaries. In addition, the base salary review for each NEO is based on assessment of factors such as current market conditions, and particular skills, such as leadership ability and management effectiveness, experience, responsibility, breadth of role or responsibilities, proven or expected performance of the individual, as well as on market competitiveness.

Short and Long-term Cash Incentives

The Corporation provides for the payment of cash bonuses to certain employees of the Corporation and its subsidiaries dependent on the performance of the Corporation and such employees. Such incentives are designed to align the compensation of NEO's with those of shareholders.

Short-term annual bonus targets are set as a percentage of the relevant individual's base salary (for 2024, target and maximum achievements varied between 40% and 50% of NEO's base compensation). Bonuses are generally based on the financial and operating performance of the Corporation on a consolidated basis and of certain business units or brands. The target levels are determined by the Board of Directors, following recommendations from the CN&G Committee. The Board can also elect to award discretionary short-term incentive payments in exceptional circumstances.

For 2024, the short-term cash incentives were based on the following criteria:

- Consolidated Normalized Adjusted EBITDA, as defined in our Management Discussion and Analysis (“MD&A”)
- Divisional Normalized Adjusted EBITDA
- Growth in divisional location count
- Individually determined non-financial objectives that are specific to each individual
- For the CEO and CFO, the progress of the ERP implementation project and the creation of global synergies in the business.
- For Jeff Smit, Albert Hank and Adam Lehr, one-time additional cash bonuses for the integration of new divisions into their area of responsibility.

We believe Normalized Adjusted EBITDA is a key metric of the Company’s operational and financial performance, as it is aligned with the compensation objectives of the Company, it is simple for participants to understand and it is an effective measure to assess performance against our peer group.

Normalized Adjusted EBITDA does not have any standardized meaning under International Financial Reporting Standards (IFRS). It is therefore likely not to be comparable to similar measures presented by other issuers. For an explanation of how Normalized Adjusted EBITDA provides useful information to investors and the additional purposes for which management uses it, as well as a reconciliation to the most directly comparable GAAP measure, please refer to our MD&A.

During 2024, the Company did not surpass the Consolidated Normalized EBITDA generated in the preceding year. As a result, none of the NEOs qualified for the related portion of the 2024 STIP. Only one of the groups had a higher Divisional Normalized EBITDA during the year than in 2023, and two divisions achieved their respective location count targets. As a result of the above, partial short term incentive payments were awarded to our CEO, CFO, CLO and all COO’s for 2024. Achievement levels ranged between 15% and 73% for 2024, with an average achievement of 36.7% for all C-suite employees.

The long-term cash incentive awards were abolished in 2020 with the exception of agreements resulting from the acquisitions of Papa Murphy’s, BBQ Holdings and Wetzel’s Pretzels, for which the long-term incentive awards are based on the organic growth in normalized adjusted EBITDA for the brand and paid over two years following the end of the reference fiscal period and is contingent on the individual being continuously employed by the Corporation until the payment date. In all cases listed above, the long-term cash incentive plans are aimed at replacing the share-based compensation that ceased existing when the acquisitions were realized. No awards were earned by NEO’s in 2024 in relation to long-term cash incentive plans.

Equity-Based Long-term Incentives

The Corporation has in place its stock option plan to directly focus on the long-term performance and to encourage ownership interest in the Corporation. The Corporation’s stock option plan is a long-term incentive program that enables officers, directors, employees and consultants of the Corporation and its subsidiaries to acquire shares of the Corporation. The objective of granting such options is to encourage individuals to acquire an increased ownership interest in the Corporation, which acts as a financial incentive for the individuals to consider the long-term interests of the Corporation and its shareholders. Stock options, if granted to executives and employees would take into account a number of factors, including the amount and term of options previously granted, base salary and bonuses and competitive factors. The amounts and terms of options granted are determined by the Board.

Stock Option Plan

On March 16, 2016, the Board adopted, an incentive stock option plan (the “2016 Plan”) which was subsequently approved by the Corporation’s shareholders on May 4, 2016. For the purposes of this section “Shares” means the Common Shares in the capital of the Corporation.

The purpose of the 2016 Plan is to advance the interests of the Corporation by: providing eligible persons, being directors, employees, officers or consultants (as defined in the 2016 Plan) of the Corporation or its affiliates (collectively, the “Eligible Persons”) with additional incentives through equity ownership; increasing the proprietary

interest of Eligible Persons in the success of the Corporation; encouraging Eligible Persons to remain with the Corporation or its affiliates as directors, employees, officers or consultants; and attracting new directors, employees, officers and service providers.

Options may be granted to Eligible Persons. Subject to the provisions of the 2016 Plan, the Board shall have the authority to determine the terms, limitations, restrictions and conditions, applicable to the vesting or to the exercise of an Option, including without limitation, the nature and duration of the restrictions, if any, to be imposed upon the sale or other disposition of Shares acquired upon exercise of the Option. An Eligible Person may receive Options on more than one occasion under the 2016 Plan and may receive separate Options on any one occasion.

Each Option granted pursuant to the 2016 Plan will vest at the rate of $\frac{1}{8}$ of the original number granted, every 6 months from the date of the grant, until fully vested at the 48th month following the date of the grant, unless otherwise specifically determined by the Board.

The aggregate number of Shares to be reserved for exercise of all Options granted under the 2016 Plan and any other security-based compensation arrangements of the Corporation shall not exceed 500,000 Shares (on a non-diluted basis).

Compensation Procedures

The Board is ultimately responsible for the determination of the compensation of senior management. See “Corporate Governance – Compensation Governance”. The Board, with the assistance of the CN&G:

1. establishes the Corporation’s general compensation philosophy and oversees the development and implementation of senior management compensation programs and policies. The Board reviews on a periodic basis the Corporation’s executive compensation program.
2. reviews annually the compensation of the Chief Executive Officer, the Chief Financial Officer, the Chief Legal Officer and the Chief Operating Officers in light of the relevant Corporation’s objectives. Based on such evaluation, the Board has the authority to set the compensation (including base salary, incentive compensation and equity-based awards) of each of the officers. In determining incentive compensation, the Corporation considers, among other factors it deems appropriate from time to time, the Corporation’s performance and relative shareholder return and the awards given to management in prior years.
3. reviews the terms of the Corporation’s incentive compensation plans and other plans. The Board administers such plans, including determining any option or share-based awards to be granted to members of management under any such plan. There were no new actions, decisions or policies between year-end and the date of this Notice of Annual General Meeting of Shareholders that could affect the understanding of compensation for the Named Executive Officers for the financial year ended November 30, 2024.

Performance Graph

The following line graph and succeeding table compare the return, assuming an initial investment of \$100, with the cumulative total return, in respect of the S&P/TSX Composite Total Return Index compiled by the Toronto Stock Exchange for the five most recently completed financial years.

	2020	2021	2022	2023	2024
MTY Food Group Inc.	\$93.03	\$100.38	\$113.70	\$97.98	\$93.33
S&P/TSX Composite Total Return Index	\$104.28	\$128.76	\$131.38	\$134.37	\$175.60

The table below shows the total shareholder returns for the Corporation's common shares and the S&P/TSX Composite Index for the five fiscal years ended November 30, 2024, together with the variation in the total compensation of the five (5) named executive officers.

A very limited number of common shares or other equity-based compensation awards have been granted since 2005, with the exception of 2017 and 2019 during which some of the NEO's were granted stock options, and 2021 when stock options were granted to independent members of the Board of Directors. The level of calculated compensation is therefore not directly correlated to the shareholder returns, mainly because salary is relatively fixed and generally unaffected by the day-to-day changes in shareholder returns.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

To the knowledge of management of the Corporation, none of the directors or executive officers of the Corporation or other informed person, nor any proposed nominee for election as a Director of the Corporation, nor any person who beneficially owned, directly or indirectly, shares carrying more than 10% of the voting rights attached to all outstanding shares of the Corporation, nor any associate or affiliate of the foregoing persons has any material interest, direct or indirect, in any transaction since the commencement of the corporation’s last completed financial year or in any proposed transaction which, in either case, has or will materially affect the Corporation, except as disclosed herein or elsewhere in this Information Circular.

ADVANCE NOTICE BY-LAW

MTY’s By-Law No. 3 sets out advance notice requirements for director nominations (the “Advance Notice By-Law”). It was adopted by the Board on March 8, 2019, and confirmed by Shareholders at the annual meeting of Shareholders on May 2, 2019. The purpose of the Advance Notice By-Law is to provide Shareholders, directors and management of MTY with guidance on the nomination of directors. The Advance Notice By-Law is the framework by which the Corporation seeks to fix a deadline by which Shareholders must submit director nominations to the Corporation prior to any annual or special meeting of Shareholders and sets forth the information that a Shareholder must include in the notice to MTY for the notice to be in proper written form.

Pursuant to the Advance Notice By-Law, if a Shareholder intends to nominate a person for election as a director of the Corporation at the Meeting, other than pursuant to a shareholder proposal, such nominations must comply with the procedures set out in the Advance Notice By-Law, including providing timely notice in proper written form.

To be timely, the nominations must be made: (i) in the case of an annual meeting of Shareholders, not less than 30 days prior to the date of the annual meeting of Shareholders (no later than 5:00 p.m. (Eastern time) on April 1, 2025), provided, however, that in the event the annual meeting of shareholders is to be held on a date that is less than 50 days after the date (the “Notice Date”) on which the first public announcement of the date of the annual meeting was made, notice by the Nominating Shareholder may be made not later than the close of business on the 10th day following the Notice Date; and (ii) in the case of a special meeting (which is not also an annual meeting) of Shareholders called for the purpose of electing directors (whether or not called for other purposes), not later than the close of business on the 15th day following the day on which the first public announcement of the date of the special meeting of shareholders was made.

To be in proper written form, a nominating shareholder’s notice must set forth or be accompanied by, as applicable, the information specified in the Advance Notice By-Law regarding both the nominating shareholder and the person whom the nominating shareholder proposes to nominate for election as a director (a “proposed nominee”).

Delivery of the notice pursuant to the By-Law may only be given by personal delivery, facsimile transmission or by email and shall be deemed to have been given and made only at the time it is served by personal delivery, email or sent by facsimile transmission (provided that receipt of confirmation of such transmission has been received) to the Secretary of the Corporation at: Corporate Secretary, 8210 route Transcanadienne, Saint-Laurent, Québec, H4S 1M5, or, in the case of e-mail, to CorporateSecretary@mtygroup.com, or by facsimile transmission at: Corporate Secretary 514-336-9222; provided that if such delivery or electronic communication is made on a day which is not a business

day or later than 5:00 p.m. (Eastern time) on a day which is a business day, then such delivery or electronic communication shall be deemed to have been made on the subsequent day that is a business day.

The Board may, in its sole discretion, waive any requirements in the Advance Notice By-Law. A copy of MTY's Advance Notice By-Law is available on our website at (www.mtygroup.com).

SCHEDULE A

AUDIT COMMITTEE CHARTER

Purpose

This charter governs the operations of the Audit Committee (the "Committee"). The Audit Committee shall be constituted in accordance with National Instrument 52-110 – *Audit Committees*.

The purpose of the Committee is to assist the Board of Directors (the "Board") in its oversight of the integrity of the Company's financial statements and other relevant public disclosures, the effectiveness of the Company's internal controls over financial reporting, the Company's compliance with legal and regulatory requirements relating to financial reporting and the external auditors' qualifications, independence and appointment.

The Committee approves and recommends to the Board, all matters falling within its purview, in accordance with its mandate, applicable laws, rules and regulations, the Company's by-laws and internal policies.

Composition

Following each annual meeting of shareholders, the Board shall elect a minimum of three directors (the "Members"), to serve on the Committee until the close of the next annual meeting of the shareholders or until the member ceases to be a director, resigns or is replaced, whichever first occurs. Any member may be removed from office or replaced at any time by the Board. One of the members shall be appointed by the Board as Chairperson of the Committee (the "Chair").

Each Member shall be independent, as determined by Canadian securities legislation requirements, and free from any relationship that, in the opinion of the Board, could interfere with the exercise of his/her independent judgment or their ability to represent their own professional view as a Member of the Committee.

Each Member shall be financially literate. Financial literacy requires that all Members have sufficient accounting or related financial management expertise to read and understand a set of financial statements, including the related notes, that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Company's financial statements.

Meetings

1. The Committee shall meet no less than four times during each financial year. The Committee shall meet on a regular basis without management or the external auditors and shall meet individually and separately with management, the internal auditors, and external auditors at least annually.
2. A majority of the Members of the Audit Committee shall form a quorum for any duly-called meeting. Questions arising at any meeting of the Audit Committee shall be decided by a majority of votes present at the meeting.
3. The Chair shall develop the agenda for each meeting of the Committee in consultation with management of the Company. The agenda and the appropriate material shall be provided to the Members on a timely basis prior to any meeting. Members shall attend meetings and review related meeting materials in advance. The Committee may invite such other persons to its meetings, as it deems necessary.

SCHEDULE B
SHAREHOLDER PROPOSAL #1

MTY has been advised that The Accountability Board, Inc., holder of 295 MTY common shares, with an aggregate value of at least \$2000 throughout the year, intends to submit the following proposal at the Meeting:

DEAR FELLOW SHAREHOLDERS:

Stanley Ma serves as both President of MTY Food Group and its board Chair. This type of leadership structure, with a non-independent board chair, can weaken a corporation's governance and harm shareholder value.

As RBC says, it's a "matter of good governance practice that an independent director be appointed to the position of chair of the board of directors" and an "independent chair is one of the primary mechanisms by which board independence is maintained."

According to the *2022 Canada Spencer Stuart Board Index (CSSBI)*, 64% of *CSSBI 100* board chairs were independent that year. Spencer Stuart reporting also shows that independent board chairs within the S&P 500 have risen from 28% in 2014 to 39% in 2024.

Further, Institutional Shareholder Services (ISS) reports that a board chair "should ideally be an independent director to help provide appropriate counterbalance to executive management."

And reports Glass Lewis: "[Our] view is that shareholders are better served when the board is led by an independent chair, a role which we believe is better able to oversee the executives of the Company and set a pro-shareholder agenda without the management conflicts that exist when a CEO or other executive also serves as chair. This, in turn, leads to a more proactive and effective board of directors."

Indeed, having a non-independent chair concentrates too much responsibility in a single person and inhibits independent board oversight of executives on behalf of shareholders.

That said, some companies with non-independent chairs will provide a measure of independent leadership through a robust lead independent director role. As BlackRock says: "In the event that the board chooses...a non-independent Chair, we support the designation of a Lead Independent Director."

But MTY has no such role.

Moreover, according to MTY's 2024 Information Circular, "no formal policy has been established to monitor the effectiveness of the directors, the Board and its Audit Committee." Rather, the board "as a whole" is responsible for "committee and individual director effectiveness issues."

So, under the Chairmanship of a non-independent director—and with no independent lead director—the board has failed to adopt any formal policy to monitor the effectiveness of either individual directors or even the board as a whole.

We believe adoption of this proposal would serve to protect shareholder interests by ensuring better independent oversight of the Company on behalf of shareholders. Thank you.

RESOLVED: Shareholders ask the board to adopt a policy, and amend the governing documents as necessary, to require the board Chair be an independent director.

MTY response:

Our Board unanimously recommends that shareholders vote **AGAINST** this proposal as we believe our strong corporate governance practices and policies should allow us to maintain flexibility while benefiting from the significant value that Stanley Ma brings to MTY in his role as Chairman.

In keeping with good corporate governance standards, the Board has had separate people serving in the roles of Chairman and CEO since 2018. In addition, on February 13, 2025, our Board appointed a Lead Independent Director to further strengthen effective independent oversight.

The Board values robust oversight and independent leadership on the Board and believes that its current governance structure accomplishes both. Our existing Board leadership structure, consisting of separate roles for the Chairman and CEO, together with a Lead Independent Director:

- (1) allows the Chairman to focus on leading the Board in its oversight responsibilities as well as its role of establishing long-term strategy for MTY,
- (2) allows the CEO to focus on executing MTY's current strategic plans and initiatives and overseeing and directing the operations of the Company and
- (3) allows the Lead Independent Director, together with engaged independent directors, to provide strong independent oversight.

Our Lead Independent Director's robust roles and responsibilities, as provided in the authorizing resolutions, are broad, similar to those of an independent Chairman and in line with good corporate governance standards, including:

- presiding at Board meetings at which the Chairman is not present; including sessions of only independent directors and in camera meetings following Board meetings;
- serving as a liaison between the Chairman, the CEO and the independent directors;
- managing actual or potential conflicts of interest;
- previewing information provided to the Board and approving meeting agendas;
- calling meetings of independent directors when appropriate or required;
- being available to represent the Board in communications with shareholders and other stakeholders where necessary or appropriate; and
- carrying out such other duties as are requested by the Board or any of its committees from time to time.

In addition to our strong Lead Independent Director, our Board structure and corporate governance practices demonstrate our commitment and accountability to our shareholders, including:

- a majority of our directors are required to be independent;
- all of our directors stand for election annually,
- all of the members of each of our standing Board Committees are independent;
- the Board and each Board Committee have the authority to hire independent legal, financial or other advisors at the Company's expense; and
- our independent directors meet in executive sessions throughout the year.

As one of our founders, Mr. Ma provides the Board and our senior executives, including our CEO, with unparalleled perspective, guidance, advice and strategic vision regarding the restaurant industry and MTY's business, operations and strategy given his decades of proven experience.

Notably, Mr. Ma is MTY's largest shareholder. His significant equity stake in MTY, ensures his alignment with the interests of fellow shareholders.

As Mr. Ma does not have daily operational responsibilities, he is focused on leading the Board and fulfilling critical oversight and governance responsibilities. Mr. Ma serves as a bridge between the Board and the CEO, offering guidance and strategic direction on an ongoing basis between Board sessions.

We believe that Mr. Ma continuing in his position as Chairman serves the best interests of MTY and of its shareholders.

For these reasons, our Board recommends retaining flexibility with respect to our governance structure and that shareholders vote "**AGAINST**" this proposal.

SCHEDULE C
SHAREHOLDER PROPOSAL #2

MTY has been advised that The Accountability Board, Inc., holder of 295 MTY common shares, with an aggregate value of at least \$2000 throughout the year, intends to submit the following proposal at the Meeting:

DEAR FELLOW SHAREHOLDERS:

Given the financial implications, we believe companies must adopt strong strategies for reducing food waste. But MTY's response to this critical issue seems sluggish and vague, rife with rhetoric but short on substance. As just one example: for all its talk about *plans* for measuring food waste, MTY hasn't actually disclosed any measurements. Thus, we now ask shareholders to weigh in.

For context, SASB Standards includes food waste in its disclosure topics for restaurants, Institutional Shareholder services (ISS) says it's "become a growing area of concern globally," and Glass Lewis says it "has significant economic...ramifications."

Indeed, a study by Champions 12.3—whose leadership includes the CEOs of Nestle, Sodexo, and Rabobank as well as the U.N. Food & Agriculture Organization's Chief Economist—found that "for every \$1 restaurants invested to cut down on food waste, they saved on average \$7 in operating costs over a three-year period." That's a 600% return on investment.

MTY's 2021 Sustainability Report did include a waste management "Roadmap" claiming the company would "work to identify a strategy on waste management in 2022" and "in subsequent years, measure our generated waste across our entire organization."

While that may certainly seem like a reasonable way to start addressing the issue, for all the report's generalized statements about waste management (broadly), *food* waste (specifically) is just vaguely referenced once, in this sentence: "Unused food products in distribution centers and test kitchens are donated to local shelters to reduce food waste."

Further, neither that report—nor any subsequent sustainability report—includes measurable food waste reduction targets.

In fact, the 2021 report's only measurable goal for lowering *any* type of waste was to reduce *menu placemats* by half in 2024. And while the 2022 and 2023 reports both touted that the placemat goal was met, neither included *any other* measurable/timebound reduction targets (for food or any other waste).

Moreover, the 2022 report barely mentions food waste, the 2023 report includes just a few vague references to it, and none include any actual food waste measurements.

By contrast, for example, Starbucks disclosed the types and quantities of food and beverages in its waste streams (and disposal methods) back in 2020 and now has a measurable goal to halve food waste by 2030. And Yum! Brands has the same goal.

We agree with BlackRock: "The need for solutions that...lower food waste and provide alternatives to scarce resources has never been greater."

Thus, whatever MTY may now claim about its waste initiatives, the fact remains that years after publishing its waste management roadmap, it still hasn't disclosed food waste measurements or reduction targets.

Thus, we seek to advance its progress and oversight on the issue. Thank you.

RESOLVED: Shareholders ask MTY to publish a food waste transparency report that identifies the types and quantities of food in the waste streams across its organization (including related disposal methods) and establishes measurable, timebound food waste reduction targets to regularly report progress toward.

MTY response:

Our Board unanimously recommends that you vote "AGAINST" this proposal. After careful review, our Board has determined that our continued approach to systematically review our business practices, prioritizing markets, banners or categories where we have a greater opportunity to influence our franchisee community and realize gains, is a more appropriate and effective use of company resources and management's attention.

We have made, and continue to make, meaningful progress to optimize our operations and reduce waste when possible. Our manufacturing plants were prioritized given the control we have over that operation and the immediately addressable volume of products we dispose of. From changing the pack size/format for our ingredients, buying in bulk when possible, to the oil recycling program, the food waste prevention program, the cardboard recycling program, the food banks program, etc, we continue to make strides towards a lower amount of waste.

MTY chooses to focus on initiatives that have the greatest impact, without consideration to our ability to make blanket claims about one aspect of sustainability or another. Given the diverse array of banners we operate, and the geographical distribution of our restaurants, the priorities we work on are often different from one banner to the next.

We have a longstanding commitment to improve our operations, our franchisees profitability, and ultimately be the best corporate citizen we can be, balancing the impact of our decisions on all stakeholders.

For example, in 2024, one of our facilities successfully diverted more than 13,500 kg from the landfill through our food waste prevention and recovery programs, creating additional value in our supply chain by generating by-products for alternative market applications. Our cardboard recycling program, implemented across our manufacturing facilities, has enabled us to divert over 82.5 tonnes of waste from landfills. According to the US EPA¹, this is equivalent to preserving nearly 1,400 trees.

Our restaurants are also making significant progress towards reducing waste or improving the recycling/reuse/composting of various materials when possible. Reducing the volume of placemats, as referred in the shareholder proposal, was one example. Improving the communication on our custom-branded packaging to help consumers determine how to dispose of those products is another. There are many initiatives conducted by our brands that have similar objectives, but that differ from one brand to another, making it more complicated to make sustainability claims that apply to all our banners and markets. We prefer to let each banner determine what will have the greatest impact and give them resources to achieve their specific goals. For instance, one of our casual dining brands enhanced its operations by transitioning from disposable paper plates for children to durable, reusable plates that are both engaging and visually appealing. This initiative not only elevated the guest experience but also help increasing franchisee direct cost margin and reduced waste by over 1,700 kg of cardboard paper annually.

In light of our commitments to continuously improve operations, focusing on banners and markets where we have the greatest impact, our Board believes that the adoption of the requested policy is unnecessary, duplicative, and would not provide meaningful benefit to shareholders.

Our Board unanimously recommends that you vote “AGAINST” this proposal.

SCHEDULE D SHAREHOLDER PROPOSAL #3

MTY has been advised that The Accountability Board, Inc., holder of 295 MTY common shares, with an aggregate value of at least \$2000 throughout the year, intends to submit the following proposal at the Meeting:

DEAR FELLOW SHAREHOLDERS:

All McDonald's eggs in Canada and the U.S. are cage-free now. Others switching to cage-free eggs include Loblaw, Restaurant Brands International (Tim Hortons and Burger King), Yum! Brands, A&W, Inspire Brands, Jack in the Box, CKE, Starbucks, Dine Brands, Brinker, Cracker Barrel, Darden, Panera, Bloomin' Brands, Cheesecake Factory, Potbelly, and Denny's.

This makes sense, considering the material implications.

- The Center for Food Safety says cage-free systems cause “significantly less stress and disease for the hens *and lead to a better final product for consumers.*” [Emphasis added.]
- A 2023 scientific study by North Carolina State University's Prestage Department of Poultry Science—and published in a peer-reviewed journal—evaluated physical quality parameters of eggs from caged hens (including conventional and “enriched” cages) and cage-free hens. It found housing has a “*highly significant effect on most physical egg quality parameters*” and that caged hens “*produce the worst-quality eggs.*” [Emphases added.]
- Studies show consumers view cage-free eggs as more humane, and more humane eggs as higher quality, healthier, and better tasting.
- And ten U.S. states have laws banning cages and/or selling cage eggs.

Yet, consider MTY's morphing position.

In 2016, MTY pledged to only use cage-free eggs by 2025 (www.bit.ly/Archived-MTY-Statement). That stayed online for *seven years*, before a shareholder proposal asked MTY to finally disclose its progress.

In exchange for withdrawing that proposal, MTY published an update, in March 2023, saying it “remains committed” to cage-free eggs, was establishing “a roadmap with benchmarks” for converting, and would “provide another update here in July with details.”

But July 2023 came and went with no roadmap. Instead, after securing the withdrawal (thereby evading a shareholder vote), MTY simply removed the agreed-upon statement.

Then, in a lengthy section of its latest Sustainability Report, MTY claimed it conducted a new “study” on the issue, so many years after its pledge, that suddenly resulted in a *new* position. Now, MTY says it'll use “enriched colony and/or cage-free and/or UEP Certified” eggs.

But breaking that down:

1. MTY's *required* to use *some* cage-free eggs, since it operates in states with cage-free laws;
2. *all* “enriched colony” eggs are from cages (“enriched colonies” are just a type of cage); and
3. *most* “UEP Certified” eggs are from cages.

Thus, MTY's new “sourcing criteria” lets it use cage eggs indefinitely, despite years of cage-free promises.

Shareholders should reject this “study” and “criteria” though.

Indeed, however MTY may try to justify its about-face, we believe the fact that its new policy diverges so significantly from those of McDonald's, Tim Hortons, Burger King and virtually every other major chain— as well as mounting regulations, food safety/quality expertise, and MTY's *own* seven years of cage-free commitments—clearly shows adoption of this proposal is warranted. Thank you.

RESOLVED: Shareholders ask that MTY adopt, as it previously pledged to do, “a roadmap with benchmarks” for switching to cage-free eggs.

MTY’s Response:

The Board unanimously recommends that shareholders vote **AGAINST** this proposal for the following reasons:

MTY’s procurement and ESG teams regularly assess its global supply chain. This process includes evaluating the opportunities and risks of transitioning our remaining contracted conventional egg purchases to a cage-free option for our North American restaurants. These assessments take into consideration our evolving need to provide the best possible guest experience, our long-standing business values and objectives, and our ESG pillars and goals. These ESG goals include a focus on our animal welfare policy, which align with the Five Freedoms and Five Domains of Animal Welfare:

Five Freedoms

1. Freedom from hunger or thirst
2. Freedom from discomfort
3. Freedom from pain, injury and disease
4. Freedom to express (most) normal behavior
5. Freedom from fear and distress

Five Domains

1. Good nutrition
2. Good environment
3. Good health
4. Appropriate behavior
5. Positive mental state

As part of our responsible sourcing policy, we are dedicated to animal welfare and supports the use of eggs coming from enriched colony and cage-free environment in our restaurants. As stated in our animal welfare program MTY has processes to assess and monitor its suppliers ensuring they meet all our requirements. In addition to this commitment, we prioritize food safety, consistent availability, and affordability.

Through our discussions with numerous animal welfare and egg farmer organizations, MTY conducted a study involving farm visits, and in-depth research to better understand hen housing systems, science-based dataⁱ, egg certificationsⁱⁱ, professional associations codes of practiceⁱⁱⁱ and suppliers’ animal welfare policies^{iv}. The conclusion allowed MTY to expand our approved sourcing criteria to two types of hen housing systems: cage-free and enriched colony.

The farmers’ code of practice for hens in both cage-free and enriched colony housing systems are aligning with our Animal Welfare policy and allow pullets and laying hens to exhibit natural behaviour without compromising the egg production and food safety standards. The enrichment allows hens the ability to perch, scratch, forage, and roam, as well as provide a nesting area to lay their eggs. In both cage-free and enriched colony, the housing systems are carefully designed to provide hens with stimulating social environments while alleviating potential physical and psychological stress.

We remain committed to our quest to transition from conventional eggs and will continue to explore additional options in line with our animal welfare program. Below is a timeline depicting our progress of our contracted eggs for our North American restaurants. The targeted achievements are estimates calculated based on our current landscape, with an understanding we will continuously work towards only choosing from sources that meet or exceed the Canadian and US standards of animal care^v and MTY Animal Welfare Policy. Our progress roadmap will be updated bi-annually and made accessible via our corporate website.
