NEWS RELEASE

Management of Golden Sky Ventures International Inc. (the "Company") is pleased to announce the acceptance by the Vancouver Stock Exchange of the shareholders' agreement between the Company and Carbayon Computer Services CSI Inc. ("CSI") for the establishment of a new federally incorporated company to be owned 51% by the Company and 49% by CSI. The new subsidiary will carry on the business of design, programming, marketing and maintenance of computer software applications and related consulting services.

The Company operates primarily in three business segments: quick service restaurants, parking management systems distribution, and computer hardware and software distribution.

Management is very excited about their outstanding product and service portfolio within the information technologies market. These new developments not only further fortify the Company's already strong technological backbone but also enhances their appeal as a convenient one-stop high tech mission critical solution provider within the growing lucrative technologies market. CSI, Insu and Gold-Tech together will drive significant momentum in market-share growth as we move into the new millennium of high-tech advancements, filled with boundless opportunities.

For more information please call Winston Yau at (514) 339-9900 ext. 286 or visit our website: www.golden-sky.com or e-mail us at info@golden-sky.com

ON BEHALF OF THE BOARD OF DIRECTORS

Claude St-Pierre, Secretary
